Active Teaching and Learning Strategies Rock Moore, Michelle A. Moore, 2004 Active Teaching and Active Learning Strategies Creating a Blueprint for Success is the cumulative result of a year of reflecting asking and listening to questions and comments that many have concerning the education of our youth The book's genesis however started many years ago as the state of California along with many other states embraced a standards based accountability system This accountability has now been coupled with the recent addition of The No Child Left Behind Legislation In a real sense we are entering both the best and worst of times I say this because of the effects of high stakes testing and the requirement that all students reach high levels of proficiency which admittedly are very lofty goals For this to be realized changes will be required in teaching and assessment as well as a more concentrated focus on student learning The instructional design introduced in this book advocates four components academic social collaborative contextual and cognitive developmental These components work in tandem with Active Teaching and Learning Strategies Combined they form a student responsive instructional methodology which optimizes student success and academic achievement We wanted to create a book that demonstrated to those of us in the field of education the value of looking at academic standards with data about our students and reflecting on how this information should influence our choices concerning instructional practices and our perceptions about the students that we are entrusted with The focus of this endeavor is to see all students achieve and succeed and to keep passion and compassion at the heart of all that we do It is the premise of this book that the difference between effective and outstanding teachers are that outstanding teachers care know how to utilize data practice active teaching strategies and promote the active learning of students Together these characteristics became the design and course of action that Created a Blueprint for Success

Fifth Graders John E. Lashbrook, 1986 Exemplary Elementary Social Studies Sherry L. Field, Jeff Passe, Andrea S. Libresco, Janet Alleman, 2014-04-01 In many elementary classrooms social studies has taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand wringing lament On the contrary the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom how teachers can integrate social studies knowledge and skills throughout the school day and how this learning can carry over into children s homes and communities The seven case studies in this book one at each elementary grade level highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability At the end of each case study each teacher provides advice for elementary teachers of social studies Our hope is that elementary teachers and prospective teachers elementary principals social studies supervisors staff developers and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum **The Journal of Educational Research** ,1922 **Getting to the Core of Writing: Essential Lessons for Every Fifth Grade Student** Richard Gentry, Jan McNeel, 2012-06-01 Inspire students to develop as writers in the fifth grade classroom with these engaging and creative writing lessons This classroom tested resource shows positive results in students writing and simplifies the planning of writing instruction It contains detailed information on how to establish and manage daily Writer s Workshop and includes consistent structured instruction to encourage students to actively participate in the writing process Specific lessons to help students develop the traits of quality writing are also included **Thinking Practices in Mathematics and Science Learning** James G. Greeno, Shelley V. Goldman, 2013-04-03 The term used in the title of this volume thinking practices evokes questions that the authors of the chapters within it begin to answer What are thinking practices What would schools and other learning settings look like if they were organized for the learning of thinking practices Are thinking practices general or do they differ by disciplines If there are differences what implications do those differences have for how we organize teaching and learning How do perspectives on learning cognition and culture affect the kinds of learning experiences children and adults have This volume describes advances that have been made toward answering these questions These advances involve several agendas including increasing interdisciplinary communication and collaboration reconciling research on cognition with research on teaching learning and school culture and strengthening the connections between research and school practice The term thinking practices is symbolic of a combination of theoretical perspectives that have contributed to the volume editors understanding of how people learn how they organize their thinking inside and across disciplines and how school learning might be better organized By touring through some of the perspectives on thinking and learning that have evolved into school learning designs Greeno and Goldman begin to establish a frame for what they are calling thinking practices This volume is a significant contribution to a topic that they believe will continue to
