S M L XL Rem Koolhaas :

S, M, L, XL Rem Koolhaas, Bruce Mau, 1997-10-01 S M L XL presents a selection of the remarkable visionary design work produced by the Dutch firm Office for Metropolitan Architecture O M A and its acclaimed founder Rem Koolhaas in its first twenty years along with a variety of insightful often poetic writings The inventive collaboration between Koolhaas and designer Bruce Mau is a graphic overture that weaves together architectural projects photos and sketches diary excerpts personal travelogues fairy tales and fables as well as critical essays on contemporary architecture and society The book's title is also its framework projects and essays are arranged according to scale While Small and Medium address issues ranging from the domestic to the public Large focuses on what Koolhaas calls the architecture of Bigness Extra Large features projects at the urban scale along with the important essay What Ever Happened to Urbanism and other studies of the contemporary city Running throughout the book is a dictionary of an adventurous new Koolhaasian language definitions commentaries and quotes from hundreds of literary cultural artistic and architectural sources *Small, Medium, Large, Extra-large* Rem Koolhaas, Bruce Mau, Jennifer Sigler, Hans Werlemann, 1995 Overzicht van uitgevoerd werk en ontwerpen van Rem Koolhaas 1944 en zijn architectenbureau OMA **Architecture and Modernity** Hilde Heynen, 2000-02-28 Bridges the gap between the history and theory of twentieth century architecture and cultural theories of modernity In this exploration of the relationship between modernity dwelling and architecture Hilde Heynen attempts to bridge the gap between the discourse of the modern movement and cultural theories of modernity On one hand she discusses architecture from the perspective of critical theory and on the other she modifies positions within critical theory by linking them with architecture She assesses architecture as a cultural field that structures daily life and that embodies major contradictions inherent in modernity arguing that architecture nonetheless has a certain capacity to adopt a critical stance vis vis modernity Besides presenting a theoretical discussion of the relation between architecture modernity and dwelling the book provides architectural students with an introduction to the discourse of critical theory The subchapters on Walter Benjamin Ernst Bloch Theodor Adorno and the Venice School Tafuri Dal Co Cacciari can be studied independently for this purpose

Narrating Architecture James Madge, Andrew Peckham, 2006-09-27 This anthology brings together the best and most interesting papers from the first ten years of The Journal of Architecture published together for the first time in a single volume Covering a wide range of topics of central importance to architecture today the papers also address the related topics to which architecture and architectural studies are inextricably linked The invited authors draw on sociology philosophy cultural studies and the sciences to round out the collection and highlight the breadth and vitality of modern architectural studies offering perspectives from different disciplines as well as different corners of the globe **Graphic Horizons** Luis Hermida González, João Pedro Xavier, Inés Pernas Alonso, Carlos Losada Pérez, 2024-04-05 This book reports on several advances in architectural graphics with a special emphasis on education research and heritage It gathers a selection of

contributions to the 20th International Congress of Architectural Graphic Expression EGA 2024 held on May 27 29 2024 in Porto Portugal with the motto Graphic Horizons This is the third volume of a 3 volume set Architecture and the Unconscious John Shannon Hendrix, Lorens Eyan Holm, 2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of independent voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian Manfredo Tafuri was able to do with the Marxist critique of architecture The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities The book explores how architecture engages dreams desires imagination memory and emotions how architecture can appeal to a broader scope of human experience and identity Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis the volume also analyses the city and the urban condition **Lost in the American City** J. Tambling, 2001-08-24 In *Lost in the American City* Jeremy Tambling looks at European reactions to America and American cities in the nineteenth century Dickens visited America in 1842 and his *American Notes* and Martin Chuzzlewit set the agenda for future discussions of America *Lost in the American City* looks at the Dickens legacy through Henry James in *The American Scene* through H G Wells in *The Future in America* and through Kafka whose novel *America or The Man Who Was Never Heard of Again* tried to re write Dickens *Lost in the American City* explores the changes in American nineteenth century urban culture which made America so different and so impossible to map for the European and which made American modernity so unreadable and challenging **The Threefold Logic of Advanced Architecture** Manuel Gausa, Jordi Vivaldi, 2021-04-15 During the last 30 years Advanced Architecture has consolidated an interactive and informational logic that differs from that of Modernity and Postmodernity This logic is threefold it is modulated through three coexisting protocols modes of action whose peaks of intensity occur in three different decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 This work proposes a threefold cultural narrative whose interactive and informational logic differs from that of modernity and postmodernity It positions three different ethos by critically approaching the architectural side of a cultural mutation that has been affecting the Western experimental areas of knowledge and practice since the end of the last century A transformative process constituted by a constellation of transdisciplinary manifestations accelerations turns shortcuts and clusterizations that by no means can be read under one

single epistemological umbrella In this sense rather than approaching the practice of architecture focusing on its disciplinary inner specificity this book approaches the research of experimental architecture focusing on its extra disciplinary entanglements It argues that a vast multiplicity of fields of knowledge participates in a cultural endeavour modulated through three protocols forms of action that singularize three decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 These three periods shouldn't be read as three hermetic and concatenated monades but as three different modulations of the same narrative that is as three overlapping and coexisting systems whose peaks of intensity occur in three different decades However the main purpose of this book is not limited to unveiling the ethos of these three conjugations It also aims at using this framework as a time field a narrative map that moves from the classificatory to the cartographical in order to vectorize the last 30 years of experimental architecture In this sense this book argues that this threefold set of protocols represents the progressive attempt to constitute critical interiorities looking for and produced through interactions that are increasingly more intimate and whose agents are increasingly more diverse A tendency oriented towards the consolidation of an intimacy between strangers that highly resonates with the cultural and technological landscape in which experimental architecture operates *Totem and taboo in architectural imagination* Alessandro Rocca, 2022-05-18 Identify powerful features of the architecture of the present time seeking to illuminate hidden knowledge and processes through a few key concepts The image apparently it seems so essential to understand today's architecture but which on closer analysis turns out instead to be an absence an unsolved problem an enigma hidden behind a culture secretly afflicted by iconoclasm Post production and montage so relevant in the avant garde and now fixed as an indispensable but often hidden creative component The parody the hidden but almost always present humor that corrodes the immediate message of architecture and makes it more unstable and above all more interesting Ornament a component censored by Modernism that today is once again the protagonist in new guises The relationship with the classic a secret affair that remains as a founding root of Western architecture **Getting it Right with Type** Victoria Squire, Friedrich Forssman, Hans Peter Willberg, 2006 Typography is no longer the specialist domain of the typesetter these days anyone who uses a computer has access to a wide range of typefaces and effects This book offers an introduction to the basics of typography including choosing which typeface to use adjusting letter line and word spacing for improved legibility understanding kerning and leading and mastering typographic details such as italics punctuation and line endings The book is illustrated throughout with practical examples demonstrating good and bad solutions There are tips for specific design tasks such as letters charts tables and design for the screen and a glossary explaining typographic terms
