- B) Being extended credit means debt has been assumed.
- C) Credit must be extended before debt can be assumed.
- D) Debt must be assumed before credit can be extended.

Furthermore, too, that even though most people pay for cars in installments, many do pay cash for the entire value of the automobile and do not go into debt in the process.

3) Which of these factors should consumers research FIRST when they receive a credit card offer with a low introductory rate?

- A) the APR after the introductory period expires
- B) the cash advance features offered by the bank
- C) the type of card, such as secured, regular, or premium
- D) the availability of special programs, such as "cash back" programs

Explanation:

Consumers should research the APR after the introductory period expires of any credit card offer with a low introductory rate.

- A) the cash advance and ATM features
- B) the APR after the introductory period expires
- C) the type of card, such as secured, regular or premium
- D) availability of special programs, such as frequent flyer miles

Explanation:

David should investigate the APR after the introductory period expires because the initial APR often increases after a set period of time. Other useful information about most features of a credit card offer are given in a disclosure box that must appear in all credit card solicitations.
