Perception and Organization A. Styhre, 2008-10-09 Drawing on a heterogeneous body of literature including art music and media theory as well as philosophical and historical studies of perception this book demonstrates that everyday work in organizations is strongly shaped by and embedded in human perception Music and Identity in Postcolonial British South-Asian Literature Christin Hoene, 2014-08-27 This book examines the role of music in British South Asian postcolonial literature asking how music relates to the construction of postcolonial identity. It focuses on novels that explore the postcolonial condition in India Pakistan and the United Kingdom Vikram Seth's A Suitable Boy Amit Chaudhuri's Afternoon Raag Suhayl Saadi s Psychoraag Hanif Kureishi s The Buddha of Suburbia and The Black Album and Salman Rushdie s The Ground Beneath Her Feet with reference to other texts such as E M Forster's A Passage to India and Vikram Seth's An Equal Music The analyzed novels feature different kinds of music from Indian classical to non classical traditions and from Western classical music to pop music and rock n roll Music is depicted as a cultural artifact and as a purely aestheticized art form at the same time As a cultural artifact music derives meaning from its socio cultural context of production and serves as a frame of reference to explore postcolonial identities on their own terms As purely aesthetic art music escapes its contextual meaning The transgressive qualities of music render it capable of expressing identities irrespective of origin and politics of location Thereby music in the novels marks a very productive space to imagine the postcolonial nation and to rewrite imperial history to express the cultural hybridity of characters in between nations to analyze the state of the nation and life in the multicultural diaspora of contemporary Great Britain and to explore the ramifications of cultural globalization versus cultural imperialism It will be a useful research and teaching tool for those interested in postcolonial literature music studies cultural studies contemporary literature and South Asian literature **Music and Conflict Transformation** Olivier Urbain, 2007-10-24 In 1999 the Israeli conductor Daniel Barenboim and the Palestinian writer Edward Said organised a concert in Weimar in which half the performers were Palestinians and the other half Israelis The performance itself and the rehearsals which preceded it had a lasting effect on all the participants How far can the relationship between music and politics be used to promote a more peaceful world That is the central question which motivates this challenging new work by

some of the leading musicians and music scholars of our time Combining theory from experienced academics such as Johan Galtung Cindy Cohen and Karen Abi Ezzi with compelling stories from musicians like Yair Dalal the book also includes an exclusive interview with folk legend Pete Seeger In each instance practical and theoretical perspectives have been combined in order to explore music s role in conflict transformation The book is divided into five sections The first Frameworks reflects in depth on the connections between music and peace while the second Music and Politics discusses the impact of music on society The third section Healing and Education offers examples of the transformative power of music in prisons and settings of conflict resolution while the fourth Stories from the Field tells true stories about music s impact in the Middle East and elsewhere Finally Reflections encourages the reader to consider a personal evaluation of the work with a view to further explorations of the power of music to promote peace Theology, Music, and Modernity Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02 Theology Music and Modernity addresses the question how can the study of music contribute to a theological reading of modernity It has grown out of the conviction that music has often been ignored in narrations of modernity s theological struggles Featuring contributions from an international team of distinguished theologians musicologists and music theorists the volume shows how music and discourse about music has remarkable powers to bring to light the theological currents that have shaped modern culture It focuses on the concept of freedom concentrating on the years 1740 1850 a period when freedom especially religious and political freedom became a burning matter of concern in virtually every stratum of Western society The collection is divided into four sections each section focusing on a key phenomenon of this period the rise of the concept of revolutionary freedom the move of music from church to concert hall the cry for eschatological justice in the work of black hymn writer and church leader Richard Allen and the often fierce tensions between music and language There is a particular concern to draw on a distinctively Scriptural imagination especially the theme of New Creation in order to elicit the key issues at stake and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today **Music and Fine Arts** in the Devotional Traditions of India Saurabh Goswami, Selina Thielemann, 2005 This book presents a number of independent articles held together by thethematic string of art as part of ritual worship and spiritual striving intraditions of devotional religion in India Emphasis is laid on music and finearts in the Vaisnava temples of Vraja with recurring reference to the art of sanjhi which counts among the unique and nowadays very rare treasures of the Indian cultural heritage

Music, Modernity, and God Jeremy Begbie,2013-11-22 When the story of modernity is told from a theological perspective music is routinely ignored despite its pervasiveness in modern culture and the manifold ways it has been intertwined with modernity s ambivalent relation to the Christian God In conversation with musicologists and music theorists this collection of essays shows that the practices of music and the discourses it has generated bear their own kind of witness to some of the pivotal theological currents and counter currents shaping modernity Music has been deeply affected by these

currents and in some cases may have played a part in generating them In addition Jeremy Begbie argues that music is capable of yielding highly effective ways of addressing and moving beyond some of the more intractable theological problems and dilemmas which modernity has bequeathed to us Music Modernity and God includes studies of Calvin Luther and Bach an exposition of the intriguing tussle between Rousseau and the composer Rameau and an account of the heady exaltation of music to be found in the early German Romantics Particular attention is paid to the complex relations between music and language and the ways in which theology a discipline involving language at its heart can come to terms with practices like music practices which are coherent and meaningful but which in many respects do not operate in language like ways

Sociology of music and its cultural implications. Interdisciplinary insights from theoretical debate and field work AA. VV.,2015-04-08T00:00:00+02:00 1043 76 Music, Business and Peacebuilding Constance Cook Glen, Timothy L. Fort, 2021-12-21 Business schools are placing more emphasis on the role of business in society Top business school accreditors are shifting to mandating that schools teach their students about the social impact of business including AACSB standards to require the incorporation of business impact on society into all elements of accredited institutions Researchers are also increasingly focused on issues related to sustainability but in particular to business and peace as a field A strong strain of scholarship argues that ethics is nurtured by emotions and through aesthetic quests for moral excellence The arts and music as shown specifically in this book can be a resource to nudge positive emotions in the direction toward ethical behavior and logically then toward peace Business provides a model for positive interactions that not only foster long term successful business but also incrementally influences society. This book provides an opportunity for integration and recognition of how music and other art forms can further encourage business toward the direction of peace while business provides a platform for the dissemination and modeling of the positive capabilities of music toward the aims of peace in the world today The primary market for this book is the academic audience Unlike many other academic books however the interdisciplinary nature of the book allows for multiple academic audiences. Thus this book reaches into schools of music business political science film studies sports and society studies the humanities ethics and of course peace studies Music at the Limits Edward Said, 2013-05-09 Music at the Limits brings together three decades of Edward W Said s essays on music Addressing the work of a wide variety of composers and performers Said analyses music s social and political contexts and provides rich and often surprising assessments He reflects on the censorship of Wagner in Israel the relationship between music and feminism and the works of Beethoven Bruckner Rossini Schumann Stravinsky and others Always eloquent and often surprising Music at the Limits reinforces Said's reputation as one of the most influential writers of the twentieth **The Extravagance of Music** David Brown, Gavin Hopps, 2018-07-13 This book explores the ways in which music century can engender religious experience by virtue of its ability to evoke the ineffable and affect how the world is open to us Arguing against approaches that limit the religious significance of music to an illustrative function The Extravagance of

Music sets out a more expansive and optimistic vision which suggests that there is an excess or extravagance in both music and the divine that can open up revelatory and transformative possibilities In Part I David Brown argues that even in the absence of words classical instrumental music can disclose something of the divine nature that allows us to speak of an experience analogous to contemplative prayer In Part II Gavin Hopps contends that far from being a wasteland of mind closing triviality popular music frequently aspires to elicit the imaginative engagement of the listener and is capable of evoking intimations of transcendence Filled with fresh and accessible discussions of diverse examples and forms of music this ground breaking book affirms the disclosive and affective capacities of music and shows how it can help to awaken vivify and sustain a sense of the divine in everyday life The Oxford Handbook of the New Cultural History of Music Jane F. Fulcher, 2013-11-01 This volume demonstrates a new approach to cultural history as it now being practiced by both historians and musicologists and the field s quest to grasp the realms of human experience understanding communication and meaning through the study of music and of musical practices The contributors employ a resonant new methodological synthesis which combines the theoretical perspectives drawn from the new cultural history and new musicology of the 1980s with recent social sociological and anthropological theories or those which attempt to ground language and symbols within both social reality and a social field of power The Art, Literature and Music of Solitude Julian Stern, 2023-12-14 This book presents a thematic analysis of various aspects of solitude silence and loneliness from the ancient world to the present day explored thematically with consideration to the links between aloneness to other social and political issues The themes include exile expulsion from a community ecstasy getting out of oneself and enstasy being comfortable within oneself to the Romantic idea of the artist as solitary There is work on aloneness in and through nature especially the importance of natural settings for positive experiences of solitude A central theme is alienation and its emotions with the idea of loneliness and the rejected self being a more modern experience The book explores modernism and postmodernism as presenting new forms of solitude in the twentieth century and how more recently there have been attempts to recover the self through therapeutic uses of the arts All of these types and experiences of aloneness are described through the lenses of artistic literary and musical forms of expression as aloneness is not only explored and articulated through these art forms but is in many ways created through these art forms Edward Said Nubar Hovsepian, 2025-06-24 An exploration of the political thought of one of the twentieth century s most influential thinkers and the foremost advocate for the Palestinian cause in the West Edward Said was one of the most influential intellectuals of the twentieth century A literary scholar with an aesthete s temperament he did not experience his political awakening until the 1967 Arab Israeli war which transformed his thinking and led him to forge ties with political groups and like minded scholars Said's subsequent writings which cast light on the interplay between cultural representation and the exercise of Western political power caused a seismic shift in scholarly circles and beyond In this intimate intellectual biography by a close friend and confidant Nubar Hovsepian offers fascinating insight into the

evolution of Said's political thought Through analysis of Said's seminal works and the debates surrounding them Edward Said The Politics of an Oppositional Intellectual traces the influence of Foucault on Said and how Said eventually diverged from this influence to arrive at a more pronounced understanding of agency resistance and liberation He consequently affiliated more closely with Raymond Williams Antonio Gramsci and more contemporaneously with his friends the late Egbal Ahmad and Ibrahim Abu Lughod Said held that it is the intellectual s responsibility to expose lies and deceptions of the holders of power A passionate advocate for the Palestinian cause his solidarity did not prevent him from launching a sustained critique of the Palestinian leadership Hovsepian charts both Said's engagement with the Palestinian national movement and his exchanges with a host of intellectuals over Palestine arguing that Said's interventions have succeeded in changing the parameters of the discourse in the humanities and among younger Jews searching for political affiliation Drawing on his diaries in which he recorded his meetings with Said as well as access to some of Said's private letters Hovsepian illuminates in rich detail the trajectory of Said's political thinking and the depth and breadth of his engagement with peers and critics over issues that continue to resonate to this day The Oxford Handbook of Western Music and Philosophy Tomás McAuley, Nanette Nielsen, Jerrold Levinson, Ariana Phillips-Hutton, 2021 The Oxford Handbook of Western Music and Philosophy celebrates the ways in which musicians have historically called upon philosophy as a source of inspiration and encouragement and scholars of music through the ages have turned to philosophy for insight into music and into the worlds that sustain it Irish Childhoods Pádraic Whyte, 2011-05-25 While much has been written about Irish culture s apparent obsession with the past and with representing childhood few critics have explored in detail the position of children's fiction within such discourses This book serves to redress these imbalances illuminating both the manner in which children s texts engage with complex cultural discourses in contemporary Ireland and the significant contribution that children s novels and films can make to broader debates concerning Irish identity at the end of the twentieth and beginning of the twenty first centuries Through close analysis of specific books and films published or produced since 1990 Irish Childhoods offers an insight into contrasting approaches to the representation of Irish history and childhood in recent children's fiction Each chapter interrogates the unique manner in which an author or filmmaker engages with twentieth century Irish history from a contemporary perspective and reveals that constructions of childhood in Irish children's fiction are often used to explore aspects of Ireland s past and present
