100% Read about each character. Think about how they are the same and different. Using 2 different colors, highlight how they are the same (color #1) and different (color #2).

KELI

Keli loves the beach, but she can't stand the feeling of the sand on her toes. She will only go into the water if she is wearing water shoes. If she even sees a tiny crab, she will scream and holler. Keli especially loves sitting under her pink beach umbrella with a book. She is most likely an Ivy and Rose B. Jones book.

DIFFERENT: COLOR #2 IS

NINA

Nina loves playing outside. If she could play outside all day every day she would be happy. Nina loves going to the beach, splashing in the water and riding the waves. She builds the most gigantic sandcastles and loves finding sticks and shells throughout the beach to decorate her castles.

Moore,2004 Active Teaching and Active Learning Strategies Creating a Blueprint for Success is the cumulative result of a year of reflecting asking and listening to questions and comments that many have concerning the education of our youth The book s genesis however started many years ago as the state of California along with many other states embraced a standards based accountability system This accountability has now been coupled with the recent addition of The No Child Left Behind Legislation In a real sense we are entering both the best and worst of times I say this because of the effects of high stakes testing and the requirement that all students reach high levels of proficiency which admittedly are very lofty goals For this to be realized changes will be required in teaching and assessment as well as a more concentrated focus on student learning The instructional design introduced in this book advocates four components academic social collaborative contextual and cognitive developmental These components work in tandem with Active Teaching and Learning Strategies Combined they form a student responsive instructional methodology which optimizes student success and academic achievement We wanted to create a book that demonstrated to those of us in the field of education the value of looking at academic standards with data about our students and reflecting on how this information should influence our choices concerning instructional practices and our perceptions about the students that we are entrusted with The focus of

this endeavor is to see all students achieve and succeed and to keep passion and compassion at the heart of all that we do It is the premise of this book that the difference between effective and outstanding teachers are that outstanding teachers care know how to utilize data practice active teaching strategies and promote the active learning of students Together these characteristics became the design and course of action that Created a Blueprint for Success
