approaches and to the necessity of raising public awareness of droughts in times of no drought The issue of structural versus nonstructural is clear in most cases While often cast as either or the message that emerges is more one of how do you integrate these approaches Finally a few chapters bring to light how prevention is needed for national security as well as water security In Focus a book series that showcases the latest accomplishments in water research Each book focuses on a specialist area with papers from top experts in the field It aims to be a vehicle for in depth understanding and inspire further conversations in the sector

**Climate Justice** T. Thorp, 2014-08-28 In this ground breaking work Teresa Thorp tackles the causes and effects of climate injustice by methodically mapping out an approach by which to reach a negotiated consensus with legal force to protect present and future generations Using the law and policy of climate change as a vehicle for illustrating how to shape our future she comprehensively overturns the widely held contemporary view of climate justice as inconstant charitable acts relative systemic notions and static concepts isolated from the common good and a congruent rule of law Responding to the adverse impacts of climate change heat waves extended drought severe flooding and desertification which represent an urgent and potentially irreversible threat to human societies and the planet requires a new and cohesive way of thinking about global policy and the law The mission of guaranteeing and realising human dignity human security and human rights is multi fold Looking through the lens of kaleidoscopic normativity a nextensible language anchored in common juridical elements should facilitate how norms enter the socio legal frame and interact within it Users need to be able to display and interpret the congruent legal norm in order to obey and apply it Galvanising this process by constitutionalising first principles and consequential norms is vital for attaining fraternity between nations and among all people

**Climate Change and Global Equity** Frank Ackerman, Elizabeth A. Stanton, 2015-03-15 Ambitious measures to reduce carbon emissions are all too rare in reality impeded by economic and political concerns rather than technological advances In this timely collection of essays Frank Ackerman and Elizabeth A. Stanton show that the impact of inaction on climate change will be far worse than the cost of ambitious climate policies

*The Water Will Come* Jeff Goodell, 2017-10-24 What if Atlantis wasn't a myth but an early precursor to a new age of great flooding Across the globe scientists and civilians alike are noticing rapidly rising sea

levels and higher and higher tides pushing more water directly into the places we live from our most vibrant historic cities to our last remaining traditional coastal villages With each crack in the great ice sheets of the Arctic and Antarctica and each tick upwards of Earth's thermometer we are moving closer to the brink of broad disaster By century's end hundreds of millions of people will be retreating from the world's shores as our coasts become inundated and our landscapes transformed From island nations to the world's major cities coastal regions will disappear Engineering projects to hold back the water are bold and may buy some time Yet despite international efforts and tireless research there is no permanent solution no barriers to erect or walls to build that will protect us in the end from the drowning of the world as we know it The Water Will Come is the definitive account of the coming water why and how this will happen and what it will all mean As he travels across twelve countries and reports from the front lines acclaimed journalist Jeff Goodell employs fact science and first person on the ground journalism to show vivid scenes from what already is becoming a water world An immersive mildly gonzo and depressingly well timed book about the drenching effects of global warming and a powerful reminder that we can bury our heads in the sand about climate change for only so long before the sand itself disappears Jennifer Senior New York Times

**Soil and Climate** Rattan Lal, B. A. Stewart, 2018-09-03 Climate is a soil forming factor and soil can mitigate climate change through a reduction in the emissions of greenhouse gases and sequestration of atmospheric CO<sub>2</sub> Thus there is a growing interest in soil management practices capable of mitigating climate change and enhancing environmental quality Soil and Climate addresses global issues through soil management and outlines strategies for advancing Sustainable Development Goals SDGs This volume in the Advances in Soil Science series is specifically devoted to describe state of the knowledge regarding the climate soil nexus in relation to Soil Processes weathering decomposition of organic matter erosion leaching salinization biochemical transformations gaseous flux and elemental cycling Soil Properties physical chemical biological and ecological Atmospheric Chemistry gaseous concentrations of CO<sub>2</sub> CH<sub>4</sub> N<sub>2</sub>O water vapors soot dust and particulate matter Mitigation and Adaptation source and sink of GHGs CO<sub>2</sub> CH<sub>4</sub> N<sub>2</sub>O land use and soil management soil C sink capacity permafrost Soil Management sequestration of organic and inorganic C nutrient requirements water demands coupled cycling of H<sub>2</sub>O N P S and Policy and Outreach carbon farming payments for ecosystem services COP21 SDGs land degradation neutrality Special topics on soil as a source or sink of CO<sub>2</sub> silicate weathering and carbon sequestration nutrients required for carbon sequestration physical protection and the mean resident time and predicting soil carbon stocks are discussed in detail throughout the book

**The Future of Technology Education** P John Williams, Alister Jones, Cathy Bunting, 2014-11-17 Twenty five years ago there was increasing optimism in policy curriculum and research about the contribution that technology education might make to increased technological literacy in schools and the wider population That optimism continues although the status of technology as a learning area remains fragile in many places This edited book is offered as a platform from which to continue discussions about how technology education might progress into the future

and how the potential of technology education to be truly relevant and valued in school learning can be achieved The book results from a collaboration between leading academics in the field the wider group of authors having had input into each of the chapters Through the development of a deep understanding of technology based on a thoughtful philosophy pathways are discussed to facilitate student learning opportunities in technology education Consideration is given to the purpose s of technology education and how this plays out in curriculum pedagogies and assessment Key dimensions including design critique students cultural capital are also explored as are the role and place of political persuasion professional organisations and research that connects with practice The discussion in the book leads to a conclusion that technology education has both an ethical and moral responsibility to support imaginings that sustain people and communities in harmony and for the well being of the broader ecological and social environment

*We Are the Weather* Jonathan Safran Foer, 2024-05-01 The New York Times bestselling author offers an accessible immediate life changing study of climate change and a call to action to combat the dilemma Some people reject the fact overwhelmingly supported by scientists that our planet is warming because of human activity But do those of us who accept the reality of human caused climate change truly believe it If we did surely we would be roused to act on what we know Will future generations distinguish between those who didn t believe in the science of global warming and those who said they accepted the science but failed to change their lives in response The task of saving the planet will involve a great reckoning with ourselves with our all too human reluctance to sacrifice immediate comfort for the sake of the future We have he reveals turned our planet into a farm for growing animal products and the consequences are catastrophic Only collective action will save our home and way of life And it all starts with what we eat and don t eat for breakfast Winner of the 2020 Green Prize for Sustainable Literature Financial Times Best Books of 2019 The Guardian Best Food Books of 2019 Fast Company Best Climate Books of 2019
