Professional Hypnotism Manual John G. Kappas, 1987 *Handbook of Suggestive Therapeutics, Applied Hypnotism, Psychic Science* Henry Sumner Munro, 1917 *The Holistic Guide to Hypnotherapy* Steve Webster C.Ht, 2017-03-29

The Holistic Guide to Hypnotherapy is the most comprehensive and detailed guide to hypnotherapy yet. The essence of hypnotherapy appears in a fluid light interspersed with information graphics, interesting points, famous quotes, and humorous memes. Detailed guides to the steps of hypnotherapy, therapies, modalities, and alternate health options help both the novice and the professional. Most hypnotists cannot hypnotize 60 percent of the population, and this book teaches you how to. Your subconscious mind can never be ill, and in this regard, the book concludes with teaching you how to be a consciousness engineer and create the existence you desire and deserve.

The Holistic Guide to Hypnotherapy Steve Webster, 2017-03-29

The Holistic Guide to Hypnotherapy: Here is the world's most comprehensive and detailed revelation of the ancient art of hypnotherapy in two volumes. Whether you are currently learning it, practicing it, a hypnotherapy professional, or just plain interested in the amazing art of hypnotherapy, this book will be your most valuable resource. Hypnotherapy is not the only discipline covered in this huge store of knowledge; among many other things, you will learn about health from a holistic point of view, benefits of nutrition, meditation, about relationships, sexuality, and more. Steve Webster brilliantly explains simple, complex, and metaphysical hypnotherapy. The differences between hypnosis and hypnotherapy. Approaches and amazing new techniques to use on different personality types. How to use 18 Laws of Suggestibility to rid clients of illness, disease, and behavioral disorder, and how to reprogram your mind. Mechanics of hypnosis, the scientific intricacies, and 27 diagnostic tools to help you. How to treat the top 35 afflictions like weight loss, anxiety, pain, sleep disorders, and social phobias. Guided imagery, neuroplasticity, epigenetics, neuro-linguistic programming, ideomotor responses, and the power of dream venting. Your clients coping, blocking, release, and defense mechanisms. Body syndromes, how emotions affect us, and the subconscious mind. How one health disorder, HHS, might be responsible for 85% of afflictions. The real Law of Attraction and how to make it work for you. Steve has coined a new description for hypnotherapists: Consciousness Engineers, because that's what they are. The client's consciousness creates their reality, and the hypnotherapist adjusts that consciousness. The subconscious mind vibrates at a level where it does not know illness, disease, and behavioral disorder, but the conscious mind vibrates at a lower level and attracts these negative energies. After reading the Consciousness Engineering section, Volume 2, you will understand your 3 minds, their vibrational levels, and how to increase your power of creation. How to manifest anything and how to become an ascended master. Learn what the subconscious mind is and how to guide your client to engage with it and harness its amazing powers. The two volumes explain how you create your whole world and how to create a world that brings you and your clients joy and peace. It explains levels of consciousness, how to increase yours, and how you are immortal in your quantum world. With over 100 inductions.
