Desde hace ya muchos años, EDUCAUSE Horizon Report® emite informes anuales en los que perfila las tendencias clave y las tecnologías emergentes que permiten vislumbrar el estado actual y futuro de la educación superior, analizando diferentes escenarios y sus posibles implicaciones. Aquí comentaremos el informe más reciente: 2022 EDUCAUSE Horizon Report | Teaching and Learning Edition, elaborado por un panel de 57 expertos en educación superior procedentes de diferentes partes del mundo.

El resumen ejecutivo de este informe pone el foco en los cambios acontecidos en la educación después de estos dos años de pandemia. Nuestro modo de pensar y de comportarnos, así como la forma de estructurar nuestras vidas y compartir lugares y espacios, han cambiado considerablemente. En educación superior, estos cambios se han reflejado en una evolución de los modelos “reactivos” o “de emergencia” que se utilizaron inicialmente durante las circunstancias excepcionales que nos tocó vivir, hacia unos modelos diferentes y sostenibles a futuro, que en algunos casos difieren bastante de lo que se hacía anteriormente. En este informe, un grupo de expertos internacionales analizan las tendencias futuras en diferentes aspectos de la enseñanza y aprendizaje en educación superior. Muchas de las discusiones y planteos que surgieron entre este grupo de expertos sugieren que estos cambios han venido para quedarse, y que ya no hay retorno a lo que era “normal” para muchas instituciones. Este informe resume los resultados de esas discusiones y nominaciones y sirve como un punto de vista sobre hacia dónde puede dirigirse nuestro futuro.

El informe divide los contenidos en 4 secciones principales: **Tendencias**, donde se analizan las líneas más relevantes a tener en cuenta en el futuro, desde el punto de vista social, tecnológico, económico, medioambiental y político, **Tecnologías y prácticas clave** que se considera que tendrán un impacto significativo en la enseñanza y aprendizaje en la educación superior, **Escenarios** alternativos que podrían darse en los futuros 10 años, e **Implicaciones** sobre qué deberíamos hacer a partir de ahora.

A continuación se comenta cada uno de estas 4 secciones, explicando el enfoque global y dando una pincelada breve a los temas abordados en cada punto.

1- Tendencias: Explorando el horizonte

El primer capítulo del informe describe las tendencias que darán forma al futuro de la enseñanza y el aprendizaje en la educación superior a nivel mundial. Las tendencias se engloban en 5 categorías principales: Social, Tecnológica, Económica, Medioambiental y Política, dentro de cada una de las cuales se identificaron las 3 líneas de tendencias futuras que se detectaron como las más relevantes para el futuro próximo:

- **Sociales:** Dado que la enseñanza es una práctica social, y que las experiencias de aprendizaje en educación superior se ven altamente influenciadas por las personas, las instituciones y el contexto social, es indispensable tener en cuenta los cambios y las tendencias en el marco social. Las tendencias consideradas más importantes son:
 - o Enseñanza híbrida y online
 - o Aprendizaje basado en competencias
 - o Trabajo remoto
- **Tecnológicas:** Debido a las necesidades detectadas durante la pandemia, las instituciones están incorporando nuevas tecnologías que permitan experiencias de aprendizaje más flexibles y adaptables. Cuáles son las tecnologías concretas y cómo se implantan en cada institución, son cuestiones a definir para el futuro próximo. Sin embargo, ya se han detectado como tendencias más relevantes, las siguientes:

Imperfect Leadership Steve Munby, 2019-07-09 In Imperfect Leadership A book for leaders who know they don't know it all Steve Munby eloquently reflects upon and describes a leadership approach that is strong on self awareness and positive about the importance of asking for help Foreword by Michael Fullan When asked to describe his own leadership style Steve uses the word imperfect This is not something he apologises for he feels imperfect leadership should be celebrated Too often we are given examples of leaders who are put on some kind of pedestal lauded as superheroes who have it all worked out and are so good at what they do that nobody else can come close This book is the antidote to that flawed perception Imperfect Leadership is an honest reflection upon leadership It is about Steve's journey covering his highs and lows and ultimately how he learned to refine and improve his leadership It is about messy trial and error butterflies in the stomach leadership and about thoughtful and invitational leadership and the positive impact it can have At the heart of the book are edited highlights of the 12 keynote speeches delivered to increasingly large audiences of school leaders between 2005 and 2017 These speeches delivered at the Seizing Success and Inspiring Leadership conferences form the structure around which Steve's story and insights are wrapped Steve's account covers some fundamental shifts in the English education system over this 12 year period and describes how school leaders altered their leadership as this context changed Furthermore it delves into how his own leadership developed as his personal context changed and explores how the notion that a leader needs to be good at all aspects of leadership is not only unrealistic but is also bad for the mental and physical health of leaders and will do nothing to attract new people into leadership positions Ultimately Steve hopes that as you read this book you will see the value of imperfect leadership and of the positive impact it

can make For those reading it who have yet to step up into leadership his sincere wish is that it will encourage and empower aspirational leaders rather than discourage them Suitable for all those in or aspiring to leadership positions in education
