Research Guide For Chinese Studies Harvard

Archie R. Crouch

Research Guide For Chinese Studies Harvard:

Handbook for Asian Studies Specialists Noriko Asato, 2013-10-08 An indispensable tool for librarians who do reference or collection management this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies Chinese Japanese and Korean Handbook for Asian Studies Specialists A Guide to Research Materials and Collection Building Tools is the first work to cover reference works for the main Asian area languages of China Japan and Korea Several leading Asian Studies librarians have contributed their many decades of experience to create a resource that gathers major reference titles both print and online that would be useful to today's Asian Studies librarian Organized by language group it offers useful information on the many subscription based and open source electronic tools relevant to Asian Studies This book will serve as an essential resource for reference collections at academic libraries Previously published bibliographies on materials deal with China or Japan or Korea but none have coalesced information on all three countries into one work or are written in English And unlike the other resources available this work provides the insight needed for librarians to make informed collection management decisions and reference selections *Chinese Studies in History*, 2007 Notable Books on Chinese Studies Chuan-hua Lowe, 1978 **The Chinese Communist Treatment of Counterrevolutionaries, 1924-1949** Patricia E. Griffin, 2015-03-08 During the period 1924-1949 amid civil war with the KMT war with the Japanese internal leadership disputes and other chaotic conditions rapid shifts occurred in the political culture of China Patricia Griffin contends that an understanding of how the Chinese Communists created a legal system at this time is essential to a grasp of more recent events Focusing on the Communists definition and treatment of counterrevolutionaries she describes and assesses the contribution of environment ideology and leadership in the development of legal techniques used by the Communists in their rise to power In this book translations of the major statutes concerning counterrevolutionaries during the period together with an account of the growth of counterrevolutionary law and the legal structure explain how the counterrevolutionaries were dealt with and how their treatment changed in response to external and internal stimuli The author analyzes the roles of ideology and experience as determinants of law toward counterrevolutionaries and in a final chapter discusses the implications of the early experience for future legal developments in China Her topic is of vital importance because of the politically sensitive nature of the subject matter and because of the time period examined Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Ch'ing Documents John K. Fairbank, 2020-10-26 Volume 1 of a syllabus and reference work for understanding Ch'ing documents written by John K

Fairbank and used for one of his history courses at Harvard University Also includes an introduction notes and an appendix

Chinese Studies Research Methodology Penelope Ann Herbert,T. Chiang,1982 *Area Bibliography of China* Richard T. Wang,1997 A combination of scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades This bibliography reflects these combined interests it is broken up into sections by subject headings and cross references refer the researcher to related topics *State and Economy in Republican China* William C. Kirby,2020-05-11 This manual for students focuses on archival research in the economic and business history of the Republican era 1911 1949 Following a general discussion of archival research and research aids for the Republican period the handbook introduces the collections of archives in the People s Republic of China and the Republic of China on Taiwan that contain materials in the areas of economics and business with data on the history of the archives descriptions of their holdings and publications on their collections The second half of the work consists of guided readings in Republican era documents such as government decrees regulations and business letters with complete vocabulary lists and explanations of terms Also included with the handbook are facsimile reproductions of these documents **Dictionary**

Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries,1979 Guide to Reference in Genealogy and Biography Mary K. Mannix,Fred Burchsted,Jo Bell Whitlatch,2015 An excellent starting point for both reference librarians and for library users seeking information about family history and the lives of others this resource is drawn from the authoritative database of Guide to Reference voted Best Professional Resource Database by Library Journal readers in 2012 Biographical resources have long been of interest to researchers and general readers and this title directs readers to the best biographical sources for all regions of the world For interest in the lives of those not found in biographical resources this title also serves as a guide to the most useful genealogical resources Profiling more than 1400 print and electronic sources this book helps connect librarians and researchers to the most relevant sources of information in genealogy and biography **Twenty-First Century Seapower** Peter Dutton,Robert Ross,Øystein Tunsjø,2013-05-02 This book offers an assessment of the naval policies of emerging naval powers and the implications for maritime security relations and the global maritime order Since the end of the Cold War China Japan India and Russia have begun to challenge the status quo with the acquisition of advanced naval capabilities The emergence of rising naval powers is a cause for concern as the potential for great power instability is exacerbated by the multiple maritime territorial disputes among new and established naval powers This work explores the underlying sources of maritime ambition through an analysis of various historical cases of naval expansionism It analyses both the sources and dynamics of international naval competition and looks at the ways in which maritime stability and the widespread benefits of international commerce and maritime resource extraction can be sustained through the twenty first century This book will be of much interest to students of naval power Asian security and politics strategic studies security studies and IR in general Japan's Cultural Policy

Toward China, 1918-1931 See Heng Teow, 2020-03-23 Most existing scholarship on Japan's cultural policy toward modern China reflects the paradigm of cultural imperialism. In contrast, this study demonstrates that Japan, while motivated by pragmatic interests, international cultural rivalries, ethnocentrism, moralism, and idealism, was mindful of Chinese opinion and sought the cooperation of the Chinese government. Japanese policy stressed cultural communication and inclusiveness rather than cultural domination and exclusiveness and was part of Japan's search for an East Asian cultural order led by Japan. China, however, was not a passive recipient and actively sought to redirect this policy to serve its national interests and aspirations. The author argues that it is time to move away from the framework of cultural imperialism toward one that recognizes the importance of cultural autonomy, internationalism, and transculturation. **Chinese Popular Religion in**

Text and Acts Shin-yi Chao, 2025-10-01 This volume explores practices and experiences in Chinese popular religion. The research adds new materials and new approaches to well-known worships such as the cults of doomsday, underworld, and Lord Guan, on the one hand, and draws attention to under-the-radar deities and holy figures hiding in the mountainous countryside or among the urban crowd. While this book centers on Chinese popular religion, it will be of use to non-Chinese scholars in folklore, religious art, and ritual studies, as well as Chinese scholars in popular culture from late medieval to contemporary times. The focus of our analysis is the discursive nature of Chinese popular religion. The enduring mutual interaction between institutional and popular religion is well captured in the analogy of reverberation that Paul Katz has first proposed. In addition, texts imply contexts. When studying texts, it is required to study the contexts in which the texts were generated, disseminated, received, and recreated, as well as the agents who did all these. Popular religion as diffused religion in C. K. Yang's terminology is not a separate realm from society, and religious history, as argued by Barend ter Haar, is an integrated part of general history. With texts as the starting point, this volume is historical in the scope while employing fieldwork in the approach. The contributors all have done their share of fieldwork in locating and collecting new primary texts such as stone inscriptions, folktales, and manuscripts. The ethnographical approach to history has been forcefully argued by historians like Daniel in a resumption of the interrupted folklore studies movement in China of the 1920s and 1930s. In the meantime, libraries and archives are by no means abandoned fields for primary source hunting. Newspapers, pamphlets, flyers, diaries, and scriptures of both institutional and popular religion all have been keenly scrutinized in this volume. **The Economy of**

Lower Yangzi Delta in Late Imperial China Billy K. L. So, 2012-10-02 Historically, the Lower Yangzi Delta or Jiangnan has played a key role in China's economic development. Indeed, as the prime example of a traditional Chinese market economy, the region serves as the core case study when making comparisons between the Chinese and Western economies in the early modern period. This book explores aspects of this vibrant market economy in late imperial China and, by presenting a reconstructed narrative of economic development in the early modern Jiangnan, provides new perspectives on established theories of Chinese economic development. Further, by examining economic values alongside social structures, this book

produces a historically comprehensive account of the contemporary Chinese economy which engenders a deeper and broader understanding of China's current economic success. With a broad range of empirical case studies which incorporate a range of social science and cultural theories, this book will be of great interest to students and scholars of Chinese history as well as Chinese economics and business.

Handbook of Christianity in China Nicolas Standaert, R. G. Tiedemann, 2009-12-01 The second volume on Christianity in China covers the period from 1800 to the present day, dealing with the complexities of both Catholic and Protestant aspects.

Christianity in China Archie R. Crouch, 1989 A bibliographical guide to the works in American libraries concerning the Christian missionary experience in China.

Organizational Behavior 4 John B. Miner, 2007 First Published in 2015 Routledge is an imprint of Taylor & Francis, an Informa company.

China Bibliography Harriet T. Zurndorfer, 2021-12-06 This volume serves as a guide to all facets of China study, from advice on choosing an appropriate literary dictionary to finding the most recent yearbooks that offer statistical data about the contemporary economy. China Bibliography does not restrict itself to one particular discipline but considers the development of Chinese civilization as a whole from its imperial beginnings to the present and therefore demonstrates how one would find information about Chinese history, literature, religion, linguistics, collectanea, as well as present-day PRC economic and political policies. Because this book also explains how bibliographical data on China has accumulated over the last 300 years, including within China itself, it also may help the reader understand the significance of a particular type of reference work.

Inside China's Legal System Chang Wang, Nathan Madson, 2013-10-31 China's legal system is vast and complex, and robust scholarship on the subject is difficult to obtain. Inside China's Legal System provides readers with a comprehensive look at the system, including how it works in practice, theoretical and historical underpinnings, and how it might evolve. The first section of the book explains the Communist Party's utilitarian approach to law, rule by law. The second section discusses Confucian and Legalist views on morality, law, and punishment, and the influence such traditional Chinese thinking has on contemporary Chinese law. The third section focuses on the roles of key players, including judges, prosecutors, lawyers, and legal academics in the Chinese legal system. The fourth section offers Chinese legal case studies in civil, criminal, administrative, and international law. The book concludes with a comparison of China's fundamental governing and legal principles with those of the United States in such areas as checks and balances, separation of powers, and due process. Uses extensive legal materials and historical documents generally unavailable to Western-based academics. Gives insider knowledge, including first-hand experience teaching law and close involvement with judges, attorneys, and law professors in China. Analyses legal issues from historical and cultural perspectives holistically.

Rebellion and Factionalism in a Chinese Province Keith Forster, 2019-07-26 A detailed case study of provincial politics during the decade-long Cultural Revolution, which analyzes the form and changing nature of mass organizations established in China by 1966. The text traces their evolution, activities, and ultimate dissolution ten years later.

Unveiling the Energy of Verbal Beauty: An Emotional Sojourn through **Research Guide For Chinese Studies Harvard**

In a world inundated with screens and the cacophony of instantaneous connection, the profound power and mental resonance of verbal art frequently fade in to obscurity, eclipsed by the continuous barrage of noise and distractions. Yet, set within the lyrical pages of **Research Guide For Chinese Studies Harvard**, a interesting work of literary brilliance that pulses with organic emotions, lies an unique trip waiting to be embarked upon. Written with a virtuoso wordsmith, this exciting opus books readers on a mental odyssey, lightly revealing the latent possible and profound affect stuck within the complicated internet of language. Within the heart-wrenching expanse with this evocative evaluation, we will embark upon an introspective exploration of the book is central themes, dissect its interesting writing design, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
