A Research Guide to Cartographic Resources Eva H. Dodsworth, 2018-09-22 The interdisciplinary uses of traditional cartographic resources and modern GIS tools allow for the analysis and discovery of information across a wide spectrum of fields A Research Guide to Cartographic Resources navigates the numerous American and Canadian cartographic resources available in print and online offering researchers academics and students with information on how to locate and access the large variety of resources new and old Dozens of different cartographic materials are highlighted and summarized along with lists of map libraries and geospatial centers and related professional associations A Research Guide to Cartographic Resources consists of 18 chapters two appendices and a detailed index that includes place names and libraries structured in a manner consistent with most reference guides including cartographic categories such as atlases dictionaries gazetteers handbooks maps plans GIS data and other related material Almost all of the resources listed in this guide are categorized by geography down to the county level making efficient work of the type of material required to meet the information needs of those interested in researching place specific cartographic related resources Additionally this guide will help those interested in not only developing a comprehensive collection in these subject areas but get an understanding of what materials are being collected and housed in specific map libraries geospatial centers and their related websites Of particular value are the sections that offer directories of cartographic and GIS libraries as well as comprehensive lists of geospatial datasets down to the county level This volume combines the traditional and historical collections of cartography with the modern applications of GIS based maps and geospatial datasets

Library Guide for Fine Arts Randall Bond, *A Research Guide to Film and Television Music in the United States* Jeannie Gayle Pool, H. Stephen Wright, 2010-12-28 Unlike traditional music film music sources are often difficult to locate and do not follow the patterns that researchers are trained to identify Although there have been several self described introductions to the field and articles that summarize the problems and state of research there is no resource that gathers together all of the basic information that is vital to film music research In this volume Jeannie Gayle Pool and H Stephen Wright address the difficulties scholars encounter when conducting research on film and television music Intended as a guide for scholars and researchers in navigating the complex world of film and television music this book provides a detailed taxonomy of film music primary sources and explains how to find and interpret them The authors tackle the problems of determining film score authorship and working with recordings of film music A bibliographic essay summarizes the major works and trends in film music research and provides clear pointers to the most important resources in the field An up to date guide to important collections of film music sources and other research materials is also included Designed to clarify the nature of film music source materials and how they are generated A Research Guide to Film and Television Music in the United States provides clear signposts for scholars and identifies opportunities for further research
