This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military s internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has

surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general Interconnecting the Violences of Men Kate Seymour,Bob Pease,Sofia Strid,Jeff Hearn,2024-11-04 This book aims to expand and enrich understandings of violences by focusing on gendered continuities interconnections and intersections across multiple forms and manifestations of men s violence In actively countering both the compartmentalisation of studies of violence by type and form and the tendency to conceptualise violence narrowly it aims to flesh out not delimit understandings of violence Bringing together cross disciplinary indeed transdisciplinary perspectives this book addresses how what are often seen as specific and separate violences connect closely and intricately with wider understandings of violence how there are gendered continuities between violences and how gendered violences take many forms and manifestations and are themselves intersectional Grounded by the recognition that violence is itself a form of inequality the contributors to this volume traverse the intersectional complexities across both experiences of violent inequality and what is seen to count as violence The international scope of this book will be of interest to students and academics across many fields including sociology criminology psychology social work politics gender studies child and youth studies military and peace studies environmental studies and colonial studies as well as practitioners activists and policymakers engaged in violence prevention The South China Sea Arbitration Alfredo C. Robles,2019-01-01 The South China Sea Arbitration which marks the first time that the Philippines and China have been parties to a compulsory dispute settlement procedure is a landmark legal case The Tribunal tackled head on critical issues in the interpretation and application of the UN Convention on the Law of the Sea that other international courts have failed to address particularly the compatibility of historic rights with the Convention the identification of maritime features as permanently submerged or above water at high tide and the distinction between features that are fully entitled to maritime zones and those that are not In addition the Tribunal also had to decide on issues as diverse as near collisions at sea illegal fishing of giant clams and sea turtles and the destruction of fragile coral reefs resulting from island building The Tribunals task was rendered arduous by Chinas refusal to appear before it In these circumstances understanding the Tribunals decisions is a challenging undertaking Chinas public relations campaign targeting the proceedings raised issues that the layperson could readily grasp notably African states support for its non appearance the integrity of the judges and the validity of arbitral awards Understanding the Awards and Debating with China aims to facilitate understanding of the South China Sea Arbitration by presenting detailed summaries of the two Arbitral Awards The author rebuts the questionable claims raised by Chinas public relations campaign and highlights Chinas covert actions during the proceedings **Conflict Dynamics** Alethia H. Cook,Marie Olson Lounsbery,2017-05-15 Conflict Dynamics presents case studies of six nation states Sierra Leone the Republic of Congo Sri

Lanka Myanmar Indonesia and Peru In the book Alethia H Cook and Marie Olson Lounsbery examine the evolving nature of violence in intrastate conflicts as well as the governments and groups involved by focusing on the context of the relationships involved the capacities of the conflict s participants and the actors goals The authors first present a theoretical framework through which the changeable mix of relative group capacities and the resulting tactical decisions can be examined systematically and as conflicts evolve over time They then apply that framework to the six case studies to show its usefulness in better understanding conflicts individually and in comparison While previous research on civil wars has tended to focus on causes and outcomes Conflict Dynamics takes a more comprehensive approach to understanding conflict behavior The shifting nature of relative group capacity measured in many different ways coupled with dynamic group goals determines the tactical decisions of civil war actors and the paths a rebellion will take The case studies illustrate the relevance of third parties to this process and how their interventions can influence tactics The progression of violence in conflicts is inextricably linked to the decisions made in their midst These influence future iterations of the conflictual relationship Complex groups on both sides both drive and are driven by the decisions made Understanding conflicts requires that these reciprocal impacts be considered The comparative framework demonstrated in this book allows one to flesh out this complexity
