

Unisab II

Advanced control system for screw and reciprocating compressors

The ability to monitor and control a large number of different refrigeration compressor types from one control unit on each compressor provides major practical advantages.

Sabroe Unisab II control units do this in an efficient, user-friendly way, which provides a substantial boost to a company's operational competitiveness.

Easy to operate

The overall Unisab II control structure features intuitive, user-friendly menus that require no special knowledge or training to operate. An added feature is that all Unisab II control panels have the same design and appearance.

Maximum reliability

All Unisab II controllers are individually certified to have passed rigorous factory test procedures. To ensure the highest overall performance of Unisab II units in both industrial and marine environments, they have been rigorously tested in relation to factors that include electrical and EMC interference, vibrations, heat and cold, shock.

Advanced operation and monitoring

Unisab II control systems provide access to all monitoring, control and limitation functions, ensuring safer and more efficient compressor operation. The Unisab II control panel enables the operator to view several different measurement parameters simultaneously and in real time.

The system also provides easy access to an alarm log for use in subsequent diagnostics in case of any shutdown.

Advanced sequencing

Unisab II features optimised sequence control for most combinations of up to 14 compressors in virtually

any combination of types. Unisab II was specially developed for use with all types of Sabroe screw and reciprocating compressors, as well as several other makes of refrigeration compressors.

Significant advantages

Unisab II provides highly advanced technology that is easy and straightforward to use. Advantages include

- one single control system
- safe operation/reduced downtime
- completely flexible communication for integration with other systems
- advanced sequencing.

Customer benefits

The Unisab II control system provides absolute reliability at no additional cost. The customer benefits include

- same "look and feel" for all compressor types
- all control functions located in one single unit
- monitoring and supervisory functions ensure safe and secure compressor operation even under extreme load
- reduced downtime
- remote monitoring and control, easily adaptable to specific requirements
- built-in sequence control for both screw and reciprocating compressors, for load sharing and energy savings
- communication cable is the only additional cost for sequencing.
