**Making Real Money in Rental Properties** Susan J. Underhill, Ken Upshaw, 1992 The 1980s may have been the decade for the dabbler and the dilettante but today s real estate market calls for real street smarts Here is a no nonsense guide to turning a profit in what is still one of the best investments available rental properties

*Nepal'S Enduring Poverty* Sukhdev Shah, 2015-08-18 Theory of economic growth has made remarkable progress over the past three decades that has helped give us a better understanding of factors that induce or inhibit growth In practice though a majority of countries have failed to increase growth and improve living conditions The elixir that has been absent from traditional growth theories is the role of an enabling environment that is needed to induce and support growth This book a case study of Nepals poverty presents the view that non economic factors play an outsized role in determining the productive use of economic resources which is critical to spur growth to a much greater extent than the level of resources a country commands The theme developed in this book is that a countrys institutional weaknesses create a hostile environment for economic growth to occur and be sustained Institutional handicaps exercise powerful constraints on the efficiency of use of resources and creation of wealth This happens because institutions are rooted in a countrys history its culture emotions and even in national psychology
