Professionalism Across Occupational Therapy Practice Elizabeth DeJuliis, 2024-06-01 When most people think of professionalism ethics or moralism they often think of a set of rules for distinguishing between right and wrong such as the proverbial Golden Rule However the true definition of professionalism is not an easy one and it is not necessarily black and white In fact it could be argued that it is often easier to describe what is not professional versus what is professional It could also be disputed that although professionalism can be recognized when you see it you may not necessarily be able to put your finger on what it is exactly

Professionalism Across Occupational Therapy Practice by Dr Elizabeth D DeJuliis provides an overview of the wide ranging knowledge skills and attitudes that encompass professionalism across the occupational therapy profession While there is no formal endorsed definition of professionalism in occupational therapy practice suggestions are provided to serve as a blueprint for use

Professionalism in occupational therapy practice is a dynamic sophistication exemplified by a combination of an individual's personal skill set knowledge behaviors and attitudes and the adoption of the moral and ethical values of the profession and society Dr DeJuliis illustrates the concept of professionalism as a unique combination of intrinsic and extrinsic qualities surrounding key constructs of ethics responsibility competency and behavior

Professionalism Across Occupational Therapy Practice discusses these various expectations in the academic setting the clinic workplace and in general society

Professionalism Across Occupational Therapy Practice utilizes a developmental approach to teaching and learning paralleling the Revised Bloom's Taxonomy 2001 This classification system provides a graded holistic methodology to human teaching and learning The concept of professionalism will be exemplified by using both a knowledge based approach to subject matter requiring higher level learning such as metacognition which is a crucial component of professionalism The chapter objectives and learning activities will challenge the reader to recall comprehend apply analysis synthesize evaluate and create knowledge directly to their context

Instructors in educational settings can visit www.efacultyounge.com for additional materials such as informative appendices and resources include sample statements for syllabi policy manuals resume and CV templates interview guidelines professional development plans and more to be used for teaching in the classroom

Occupational Therapy practitioners at all levels including fieldwork educators leaders managers and researchers will also benefit *Professionalism Across Occupational Therapy Practice* as it provides a synopsis of professional expectations beyond the classroom and fieldwork setting Due to recent changes in healthcare educational standards and societal influence the

expectation of professionalism has been under greater scrutiny across health and social care professions Professionalism Across Occupational Therapy Practice is the ideal text to provide a blueprint for occupational therapy students faculty and practitioners to fulfill our profession's potential and achieve the American Occupational Therapy Association's Vision 2025

A Clinician's Guide to Functional Neurological Disorder Egberdina-Józefa van der Hulst, 2023-04-28

This manual for clinicians presents a ground breaking accessible and unifying new model for understanding functional neurological disorder FND that bridges the gap between theoretical FND specific models and the more practical but non FND specific Cognitive Behavioural Therapy CBT models Grounded in psychology the Pressure Cooker Model provides a clear metaphor for FND focusing on intra individual and inter individual cognitive emotional and behavioural processes Developed based on years of clinical experience in the field it is applicable to the assessment and treatment of every type of FND Viewed as a systemic condition with unique psychosocial features the book will describe the rationale for radically transforming FND recovery by providing a treatment model that aims to resolve emotion dysregulation processes and repair relationships between the person and the system It uses a unifying framework to guide the steps of intervention and can be adapted for work in a multidisciplinary team context to facilitate communication between disciplines Enriched with case studies and research data the book also highlights a plethora of clinical tools and strategies based on the Pressure Cooker Model as well as contextualising its position alongside CBT models This manual is instrumental in educating and treating people with FND It offers essential guidance for neuropsychologists neuropsychiatrists and other health professionals as well

as students in these fields *Kielhofner's Model of Human Occupation* Renee Taylor, Patricia Bowyer, Gail Fisher, 2023-04-21 Updated throughout with the latest research Kielhofner's Model of Human Occupation 6th Edition is the definitive resource on the theory and application of the most widely used model in occupational therapy today A client centered approach explores what motivates each individual how they select occupations and establish everyday routines and how environment influences occupational behavior This revised 6th Edition reflects the current framework and incorporates the most up to date MOHO theory research and application practices to give users complete preparation for today's client care challenges

Occupational Therapy, 1971 **E-Learning Practice in Higher Education: A Mixed-Method Comparative Analysis** Sayed Hadi Sadeghi, 2017-09-13 This book investigates e learning practices at American and Australian institutes of higher learning their status quo best practice examples and remaining issues Utilizing a mixed methods approach it combines three studies two using quantitative methods and a third using qualitative methods in order to gauge the status quo of e learning The first study addresses the dominant cultural dimensions revealing that the main explanation for the results may be the fact that most suppliers of the Australian university's e learning system had an East Asian cultural background and predominantly traditional perspectives on learning In Study 2 the findings indicate that the levels of e learning practice at the Australian and US universities surveyed were above average although the American university was ranked higher in terms of e learning practices In turn Study 3 investigates current problems in e learning practice on the basis of four aspects pedagogy culture technology and e practice and determines that cultural sensitivity and effective cultural practices show room for improvement while key technological challenges and issues like faculty policies quality LMS and online support need to be overcome In general the outcomes suggest that it is essential for the Australian university surveyed to further develop and update its e learning system especially in terms of e practice using the same technologies that pioneering countries like America are employing Indeed the combination of adopting patterns successfully used in other countries and adjusting them to the Australian culture represents the best strategy for educational decision and policy makers This book provides the basis for designing a culture sensitive framework for higher education e learning practice in American and Australian contexts Moreover students and teachers experiences with e learning in a comparative higher education context can help higher education instructors and university managers to understand how e learning relates to and can be integrated with other experiences of learning and teaching *A Clinical Approach to Geriatric Rehabilitation* Jennifer Bottomley, Carole Lewis, 2024-06-01 The field of geriatric rehabilitation is constantly changing due to the discovery of new evidence based evaluation and treatment strategies as well as the continual support or refutation of older theories and practices Now in its Fourth Edition *A Clinical Approach to Geriatric Rehabilitation* has been updated to be at the forefront of these changes and includes free video content from MedBridge and a discount on a MedBridge subscription to geriatric rehabilitation courses offered by the authors Drs Jennifer M Bottomley and Carole B Lewis have compiled the plethora of

available scientific research on geriatric populations and combined it with their years of actual clinical practice Together this makes this text a complete evidence based guide to the clinical care of geriatric patients and clients The first part of A Clinical Approach to Geriatric Rehabilitation Fourth Edition tackles applied gerontological concepts providing the general knowledge base necessary for treating geriatric patients Topics in this section include patient evaluation an exploration of nutritional needs and age related changes in physiology and function as well as many other foundational areas In the second section topics become more focused on patient care concepts like neurologic considerations cardiopulmonary and cardiovascular considerations and establishing community based screening programs In the final section chapters center on administration and management including important subjects such as attitudes ethics and legal topics as well as consultation and research New and updated in the Fourth Edition Pearls section for succinct highlights of the content within each chapter The latest evidence based practice interventions with complete references for further reading Updated graphics pictures and diagrams to illustrate the content Content summaries and streamlined text for enhanced readability Updated case studies to exemplify clinical decision making Designed to provide valuable real life clinical knowledge A Clinical Approach to Geriatric Rehabilitation Fourth Edition gives physical therapists an evidence based guide to the clinical aspects of rehabilitative care in older adult patients and clients *Resources in Education* ,1994
