J. Eden, 1981 **On the Political Economy of Market Socialism** James A. Yunker, 2018-05-08 This title was first published in 2001 Spanning a quarter of a century this collection makes conveniently accessible 14 of Yunker s thorough and highly illuminating contributions to the literature on market socialism **Why Face-to-Face Still Matters** Jonathan Reades, Martin Crookston, 2021-03-18 What makes a great city Why do people and businesses still value urban life and buildings over a quiet life in the suburbs or countryside Now might seem a difficult time to make the case for social contact in urban areas so why is face to face contact still considered crucial to many 21st century economies In a look back over a century s worth of thinking about cities business and office locations this accessible book explains their ongoing importance as places that thrive on face to face meetings and in negotiating uncertainty and sealing the deal Using interviews with business leaders and staff from knowledge intensive innovation rich industries it argues for the continuing value of the right location despite the information revolution the penetration of artificial intelligence AI and the COVID 19 pandemic It also explores why digital systems have transformed businesses in cities and towns but in fact have changed surprisingly little about the challenges of business life This timely book gives readers including developers investors policy makers and students of planning or geography essential tools for thinking about the future of places ranging from market towns to great World Cities On Economic Knowledge Adolph Lowe, 2017-07-05 This book first published in 1965 with a revised edition in 1977 examines the subject matter and the method of the science of economics On Economic Knowledge explores the historical trends of economics the logic of economic science and whether or not economics can be viewed in itself as a science This title will be of interest to students of economics *Notes - Municipal Reference and Research Center* Municipal Reference and Research Center (New York, N.Y.), 1925 *International Business Economics* Judith Piggott, Mark Cook, 2006-05-19 This text explores international

business economics from a European perspective dealing not only within business in Europe but with the external trading relationships of the EU and the position of European firms in a globalized economy An extensive website provides lecturers with support material Also available is a companion website with extra features to accompany the text please take a look by clicking below <http://www.palgrave.com/business/piggott> [Studies in the Economic Development of India](#) Massachusetts Institute of Technology, 1967 **Agricultural Library Notes**, 1942 **Economics In The Future** Kurt Dopfer, 2019-08-20 First published in 1976 Economics has always been in a crisis since it broke away from social philosophy in the late eighteenth century But from time to time this crisis has been particularly acute Such was the case at the turn of the last century when the classical predictions proved less and less true and in response the marginalist schools emerged Such also was the case at the beginning of the 1930s when the proof of the established harmony propounded in that theory was contradicted by the Great Depression giving rise to the new macroeconomics pioneered by Keynes doubt that contemporary economics is in a crisis at least if crisis is defined as the inability to meet the challenge of the times Problems like mass poverty unbalanced affluence increasing regional economic disparities imbalances in population development irrational disposition of non renewable resources and production and consumption processes ill adjusted to the limited carrying capacity of the environment are among many pressing problems awaiting solution by economists The purpose of this book is to bring together responses from leading economists to these problems Given the vast subject matter it is only to be expected that the specific emphasis given to various approaches differs among the authors

Accountants' Index American Institute of Certified Public Accountants, 1924 **An Introduction to Business** Harold Howard Maynard, Walter Crothers Weidler, 1925 **Theory of Profit with Islamic Directions** Zubair Hasan, 2016-07-08 **THEORY OF PROFIT WITH ISLAMIC DIRECTIONS** deals with a controversial and neglected but nonetheless important subject Readers will find the narration interesting and innovative for it does not discuss profit theories of various writers separately in chronological order instead it identifies issues in the area and analyses the views of various writers on each to propose restructuring of the theory as per Islamic directions The issues raised include the definition and seat of profit the cause of its emergence and sources the motivational aspects and their impact on allocation of resources and incomes distribution the nature of profit and the regulatory policy role The work concludes that the source of prevalent confusion on the subject lies in defining profit as a costs revenues differential of firms and the insistence that it is exclusively attributable to the entrepreneurs who tend to be vanishing in the modern corporate era For a reformulation of the theory to get rid of inconsistencies the work suggests that profit should be viewed only as a cost revenue differential delinked from reward the firm not the entrepreneur should be the focal point for its study the surplus beyond normal profit must be shared between capital and labour subject to a minimum wage constraint to promote social harmony and distributive justice This book will appeal to the general reader who is looking for a lucid narration on a topic of common interest Academics will find it

interesting because of its historical updating and novelty of treatment University students of economics will find this work an invaluable resource **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1973
