

Recette pour la Galette des Rois (Recipe for the Kings' Cake)

Pour préparer le gâteau traditionnel du 6 janvier, il faut:

- Deux pâtes feuilletées
- 125 grammes de poudre d'amande
- 125 grammes de sucre
- 125 grammes de beurre (mou, non salé)
- 2 œufs et 1 jaune d'œuf
- Une cuillère de rhum (mais c'est facultatif !)
- Une fève !

Avant de commencer, préchauffez le four : thermostat 7/8 (180 degrés)

Etape un : Mélangez le beurre mou avec le sucre pour obtenir un mélange homogène et un peu mousseux.

Etape deux : Ajoutez les deux œufs entiers, la poudre d'amande et la cuillère de rhum si vous voulez.

Etape trois : Sur une plaque, déroulez la pâte (laissez la feuille de cuisson en dessous) et versez le mélange jusqu'à deux centimètres du bord. Et mettez la fève dedans.

Etape quatre : Recouvrez avec la deuxième pâte. Collez les bords avec vos doigts, puis relevez les bords.

Etape cinq : Avec un pinceau ou un essuie tout, étalez le jaune d'œuf sur la surface, puis tracez avec un couteau des traits sur le dessus.

Etape six : Mettez au four pendant vingt minutes. Et dégustez ! Tiède ou froid c'est bon !

Machine translation for everyone: Empowering users in the age of artificial intelligence Dorothy Kenny , 2022-07-06 Language learning and translation have always been complementary pillars of multilingualism in the European Union Both have been affected by the increasing availability of machine translation MT language learners now make use of free online MT to help them both understand and produce texts in a second language but there are fears that uninformed use of the technology could undermine effective language learning At the same time MT is promoted as a technology that will change the face of professional translation but the technical opacity of contemporary approaches and the legal and ethical issues they raise can make the participation of human translators in contemporary MT workflows particularly complicated Against this background this book attempts to promote teaching and learning about MT among a broad range of readers including language learners language teachers trainee translators translation teachers and professional translators It presents a rationale for learning about MT and provides both a basic introduction to contemporary machine learning based MT and a more advanced discussion of neural MT It explores the ethical issues that increased use of MT raises and provides advice on its application in language learning It also shows how users can make the most of MT through pre editing post editing and customization of the technology

Cooking Up the Nation Lara Anderson,2013 The book is the first to analyse the textual construction of a national Spanish cuisine in the late nineteenth and early twentieth century This book looks at the textual attempts to construct a national cuisine made in Spain at the turn of the last century At the same time that attempts to unify the country were being made in law and narrated in fiction Mariano Pardo de Figueroa 1828 1918 and Jos Castro y Serrano 1829 96 Angel Muro Goiri 1839 1897 Emilia Pardo Baz n 1851 1921 and Dionisio Prez 1872 1935 all tried to find ways of bringing Spaniards together through a common language about food In line with this nationalist goal all of the texts examined in this book contain strategies and rhetoric typical of nineteenth century nation building projects The nationalist agenda of these culinary texts comes as little surprise when we consider the importance of nation building to Spanish cultural and political life at the time of their publication At this time Spaniards were forced to confront many questions relating to their national identity such as the state s lackluster nationalizing policies the loss of empire national degeneration and regeneration and their country s cultural dependence on France In their discussions about how to nationalize Spanish food all of the authors under consideration here tap into these wider political and cultural issues about what it meant to be Spanish at this time

Lara Anderson is Lecturer in Spanish Studies at the University of Melbourne
