WHY WHY WHY Frequently Asked Questions WHERE TO FIND MORE [The Skin Doctor](#) Jenny Kings,2019-09-16 Finding the right soap bathing soaps hand wash shampoos or hair conditioner can be very tricky It can be hard to get a soap bar or liquid soap that contains all the benefits or ingredients you want Also most soaps that are sold now may contain some harmful chemical substances which can cause havoc on your skin and make you susceptible to acne and skin infections The best approach to avoiding all these land mines in choosing the perfect soap for you and your family is to make your soaps yourself Homemade natural soaps are all the rage right now Why Because they accord you the privilege of choosing the right blend of natural ingredients that are best for you and your family and creating your perfect soaps Natural soaps can be made from any number of natural ingredients like shea butter coconut oil aloe vera and olive oil You can choose this natural based on your skin type If you have dry skin you can choose ingredients like shea butter coconut oil and olive oil which will help in hydrating your skin For oily skin you can choose a potent detoxifier like charcoal When you make your homemade natural soaps you have endless possibilities to choose from All you have to do to learn the best way to make homemade natural soap is to download this book and get access to the best natural soap recipes in the world Download this book and get started now

[Soap Making for Beginners](#) Laura Garner,2020-11-18 Are you looking for a method for crafting soap while at home Then keep reading There s no better way to understand something than to make it but without background knowledge you can sometimes feel a bit lost Which is why I can t teach you how to make soap without first answering the fundamental question What is soap Put simply when lye water is added to oils there is a chemical reaction called saponification Just as your

elementary school vinegar and baking soda volcano eruption demonstrated a chemical reaction when two ingredients came together to make something completely different the saponification process is a chemical reaction between fatty acids oils butters fats and sodium hydroxide lye that makes something new soap Recipes are developed with the goal of using all the lye during saponification so that no lye remains in the final soap product The benefits of from scratch soap Before you dive into any new project it s helpful to understand the benefits of what the project will provide When it comes to soapmaking there are huge benefits to making your own from scratch This is the most important benefit for me and my family When you make your own soap from scratch you know exactly what is going into it You make the decisions on what is healthy for your skin and for the skin of those you love No processing procedure or ingredients ingredients that the government determines to be generally recognized as safe and thus do not need to be listed on a label are getting into your soap because you are in full control If you want to be healthy buying premade organic and premium products can become really expensive When you make your own there is an initial cost to the ingredients but once you have them on hand you can make enough soap for family and friends and still have ingredients left over to make lotions lip balms and other bath and body products One of the reasons I started my company simple life mom was because I wanted to learn how to make more of what we use on a daily basis I value being able to have the choice to buy or make my own products Soap shampoo bars shaving bars laundry bars these are all things that we use on an almost daily basis and that we can create ourselves There is something very exciting about making a beautiful batch of soap with your own hands It ll get you hooked in a good way My first batches were made with makeshift molds and the results were funky shapes and sizes I still couldn t have been prouder I was like a little girl making her first batch of cookies I still feel the same way today Learning a marketable skill Many people today are searching for pure and natural bath and body products Who knows You could end up starting a very successful home business just as I did This book covers the following Understanding soapmaking Essential equipment and ingredients for making homemade natural soaps Step by step process with recipes Soap recipes How to wrap and preserve soaps How to decorate your soap bars Deciding to sell AND MORE

DIY Natural Hot Cold Process Soap Crafting Ultimate Guide to Making Selling Colorful Natural Soaps Recipes Included

Dioxane Sulfate Diethanolamine are some of the ingredients in commercial soap that I never questioned until I began making soap at home That s when my curiosity got the best of me After finding just these three I wanted to call a truce to look for dangerous additives in what I used and worse yet my children used to clean That s when I thought I found the fourth one Fragrance How in the world could something that sounds as harmless as fragrance possibly damage your skin How wrong I was The definition of fragrance was a far cry in meaning than the one on the soap label I began making soap because it was a fun hobby I could share with my children I continued because it morphed into a successful small business But I m now compelled to continue knowing that I m contributing to the health of my family I wanted to arrange the chapters in a logical order So you are not confused as I was when I first started This book is divided into Two Parts In the first part it is all about how to master the art of soap making using the Hot Process Method In the second Part I show how you can master the soap crafting using the Cold Process Method At the end of each part I give you a few recipes to try out your newly acquired skill but no worries these recipes are designed to guide you through each and every step from start to finish And lastly in chapter 16 it is all about how to start run and grow your soap business right from home After reading the book you will become a master on how to make homemade soap using both Hot Cold Process methods You will also learn about all soap making supplies my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs all natural and organic soap made right at home If you have any question I have added my personal email address at the end of the book so you can contact me
