Countries provides nothing less than a blueprint for abolishing women's poverty Earthling Dean Wallraff, 2023-11-25

Climate Change is the most important ethical problem humanity is facing right now We are in the process of harming the Earth in ways that will diminish the quality of life for many future generations Our old human centrism our national tribalism and our short term perspectives must give way to new ways of thinking that give moral standing to other animals and that take global and long term perspectives In the year 3000 humankind will look back to the present century which dramatically altered the planet's climate and ecosystems Will they curse us as destroyers of the earthly paradise humankind enjoyed until now To avoid this we need to change our approach to ethics economics sustainability politics and law Earthling A New Ethics for the Anthropocene addresses sustainability economics politics and law as important factors in climate ethics It aims to both help with understanding these issues and present potential solutions for the problem **Woman's Home Missions of the Methodist Episcopal Church**, 1922 **Women's Lives around the World** Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in depth look at the lives of women and girls in approximately 150 countries this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls For millennia women around the world have shouldered the responsibility of caring for their families But in recent decades women have emerged as a major part of the global workforce balancing careers and family life How did this change happen And how are societies in developing countries responding and adapting to women's newer roles in society This four volume encyclopedia examines the lives of women around the world with coverage that includes the education of girls and teens the key roles women play in their families careers religions and cultures how issues for women intersect with colonialism transnationalism feminism and established norms of power and control Organized geographically each volume presents detailed entries about the lives of women in particular countries Additionally each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions Primary source documents include sections of countries constitutions that are relevant to women and girls United Nations resolutions and national resolutions regarding women and girls and religious statements and proclamations about women and girls The organization of the set enables readers to take an in depth look at individual countries as well as to make comparisons across countries Rich Man's War David Williams, 2011-03-15 In Rich Man's War historian David Williams focuses on the Civil War experience of people in the Chattahoochee River Valley of Georgia and Alabama to illustrate how the exploitation of enslaved blacks and poor whites by a planter oligarchy generated overwhelming class conflict across the South eventually leading to Confederate defeat This conflict was so clearly highlighted by the perception that the Civil War was a rich man's war and a poor man's fight that growing numbers of oppressed whites and blacks openly rebelled against Confederate authority undermining the fight for independence After the war however the upper classes encouraged enmity between freedpeople and poor whites to prevent a

class revolution Trapped by racism and poverty the poor remained in virtual economic slavery still dominated by an almost unchanged planter elite The publication of this book was supported by the Historic Chattahoochee Commission **Woman's Home Companion** ,1910 Engendering Democracy in Africa Niamh Gaynor,2022-06-01 This book investigates women s political participation in Africa Going beyond the formal institutions of electoral politics it explores a range of spaces where everyday politics take place at national and at local levels In recent years there have been significant improvements in the number of women elected to parliament in Africa However there is little indication that this is translating into better developmental outcomes and indeed there is mounting evidence that it could in fact help to bolster some authoritarian regimes Starting from the premise that politics is a far broader project than securing a seat in national or local legislatures alone this book explores the opportunities for women s political participation across a number of informal spaces where women and men gather organise and interact in a more regular and systematic manner Combining insights from political science sociology and feminist theory and drawing on detailed cases from the Congo Kenya Malawi Nigeria and Rwanda it examines how power in its multiple dimensions circulates across a range of everyday political spaces while drawing attention to the links between domestic gender inequalities and the global political economy Inviting scholars practitioners and activists to broaden their focus beyond formal electoral institutions if they want to support women to become more politically active this book provides fresh insights into major issues at the heart of African studies development studies gender and development democratisation and international relations **The Ladies' Home Journal** ,1894 A Critical Companion to Lynn Nottage Jocelyn L. Quiney,2017-05-01 With her soft linen head scarf and white apron emblazoned with a red cross the Voluntary Aid Detachment nurse or VAD has become a romantic emblem of the First World War This Small Army of Women draws on diaries letters and interviews to tell the forgotten story of the nearly two thousand women from Canada and Newfoundland who volunteered to do their bit at home and overseas Middle class and well educated but largely untrained VADs were excluded from Canadian military hospitals overseas the realm of the professional nurse but helped solve Britain s nursing deficit and filled gaps in Canada s domestic nursing ranks Their dedication and struggle to secure a place at their brothers bedsides reveals much about women s contributions to the war effort the tensions between amateur and professional nurses and women s evolving role outside the home *At Home with the Diplomats* Iver B. Neumann,2012-08-15 The 2010 WikiLeaks release of 250 000 U S diplomatic cables has made it eminently clear that there is a vast gulf between the public face of diplomacy and the opinions and actions that take place behind embassy doors In *At Home with the Diplomats* Iver B Neumann offers unprecedented access to the inner workings of a foreign ministry Neumann worked for several years at the Norwegian Ministry of Foreign Affairs where he had an up close view of how diplomats conduct their business and how they perceive their own practices In this book he shows us how diplomacy is conducted on a day to day basis Approaching contemporary diplomacy from an anthropological perspective Neumann examines the various aspects of diplomatic work and practice including immunity permanent representation diplomatic sociability accreditation and issues of gender equality

Neumann shows that the diplomat working abroad and the diplomat at home are engaged in two different modes of knowledge production. Diplomats in the field focus primarily on gathering and processing information. In contrast, the diplomat based in his or her home capital is caught up in the seemingly endless production of texts, reports, speeches, position papers, and the like. Neumann leaves the reader with a keen sense of the practices of diplomacy, relations with foreign ministries, mediating between other people's positions while integrating personal and professional into a cohesive whole, adherence to compulsory routines and agendas, and above all, the generation of knowledge. Yet even as they come to master such quotidian tasks, diplomats are regularly called upon to do exceptional things, such as negotiating peace.

Maternity, Newborn, and Women's Health Nursing Susan A. Orshan, 2008. This new book will be a core text for undergraduate Maternity Newborn courses. It also will work for courses emphasizing Women's Health across the lifespan. Coverage includes core content on preconception, pregnancy, labor, birth, and postpartum. In addition, the text focuses on important topics throughout a woman's life: health promotion, nutrition, medical issues, psychosocial issues, sexuality, family, fertility, control, and issues, menopause, and aging. While other texts touch on the different stages of a woman's lifespan, this book provides more detail and information in areas outside the average maternity text.

The Frugal Woman's Guide to a Rich Life Thomas Nelson, 2003-10-13. The Frugal Woman is not cheap. She's a cost-conscious, savvy consumer who avoids wasting her time, her money, and her energy on things she does not need. She's organized about her money management, spending, and household planning. She makes decisions based on her own needs and values. She's in control of her life. The Frugal Woman dresses her kids in brand-name clothes, gets her hair done in salons, buys antique furniture, eats gourmet meals, gives gifts that wow her friends and family, and all the while, socks money away in her savings and retirement account, living free of credit card debt and feeling secure about tomorrow while enjoying today. The Frugal Woman's Guide to a Rich Life tells how to be just such a Frugal Woman: how to make the best use of what you already have; how to identify what you really need in your life and what you don't; how to get the necessities and even a few luxuries for less; and how to cut down on your and the earth's wasted resources.
