

When discharging nursing facility (NF) patients 1. Use a standardized Discharge Progress Note Form. 2. Complete all items. 3. Describe the hospital course fully. For a surgical patient, include any medical complications and any ICU stay. 4. Print your name and your phone number on the form in case the NF and attending physician need clarification from you.	Facts about NFs 1. The NF is home to residents who become hospital patients. 2. Nursing facilities do not have a pharmacy. The NF will have to specially order an intravenous pole. Do not discharge patients on the last minute or late in the day on Friday afternoon. Nursing facility physicians are not in the facility daily. They must verify your admission orders and the nurses must be able to read your orders. Please write legibly.
Be clear with your orders 1. Wound care: Specific treatment, frequency, and write legibly. 2. If MRSA*, state location. 3. If VRE*, state if colonized or not 4. For follow-up appointments with specialty clinics, indicate the reason for follow up. 5. Be specific with range of motion and weight bearing status. It is not enough just to order physical and/or occupational therapy.	Who are the NF caregivers? 1. Charge nurses and treatment nurses are licensed vocational/practical nurses [LVN/LPN]. 2. Frontline caregivers are nursing assistants. 3. There may be 2–3 registered nurses [RNs] in the entire facility and one of them does full time administration work. The average RN time for each resident per day is 5–6 minutes. 4. Medications are often administered by medication aides who have been nursing assistants for 6 months or more.
<u>Please DO NOT</u> 1. Document “no rehabilitaton potential”; this can change. 2. Order sitters [NFs cannot afford this]. 3. Order expensive medications or change antibiotics after the patient has been accepted by the NF without prior notification.	*MRSA = methicillin resistant staph aureus *VRE = vancomycin resistant enterococcus

Restorative Nursing Progress Note Example

Christian G. Meyer

Restorative Nursing Progress Note Example:

Restorative Care Nursing for Older Adults Barbara Resnick, 2004-07-28 The purpose of restorative care nursing is to take an active role in helping older adults maintain their highest level of function thus preventing excess disability This book was written to help formal and informal caregivers and administrators at all levels to understand the basic philosophy of restorative care and be able to develop and implement successful restorative care programs The book provides a complete 6 week education program in restorative care for caregivers many suggestions for suitable activities and practical strategies for motivating both older adults and caregivers to engage in restorative care In addition the book provides an overview of the requirements for restorative care across all settings the necessary documentation and ways in which to complete that documentation
