The Real Oil Shock Ryan C. Smith, 2022-08-31 The rise of the global financial industry is treated by many economists as a critical component of the rise of neoliberalism. What few address is the role of the 1973 OPEC Oil Embargo and the 1979 Oil Shock in making modern financialization possible. Here it will be demonstrated that the dramatic transfer of wealth from the industrialized capitalist world to OPEC's members triggered by the Oil Embargo and the Oil Shock created a vast pool of liquid capital. Oil prices inflation as a result of Embargo and Shock also triggered a balance of payments crisis that created unprecedented global demand for credit. Processing this capital and mitigating the inflationary pressures which followed the 1973 Shock encouraged the development of more liquid internationally mobile instruments that made financialization possible and ushered in the effective privatization of money creation. This transformation of the creation of money, the rise of a new global debt cycle, and petrocapital fuelled changes to financial practices laid the foundations of modern finance and the neoliberal world order as we know them.

Asset Pricing and Portfolio Choice Theory Kerry Back, 2017 Today all would agree that Mexico and the United States have never been closer; that the fates of the two republics are intertwined. Mexico has become an intimate part of life in almost every community in the United States through immigration, imported produce, business ties, or illegal drugs. It is less a neighbor than a sibling; no matter what our differences, it is intricately a part of our existence. In the fully updated second edition of *Mexico: What Everyone Needs to Know*, Roderic Ai Camp gives readers the most essential information about our sister

republic to the south Camp organizes chapters around major themes security and violence economic development foreign relations the colonial heritage and more He asks questions that take us beyond the headlines Why does Mexico have so much drug violence What was the impact of the North American Free Trade Agreement How democratic is Mexico Who were Benito Juarez and Pancho Villa What is the PRI the Institutional Revolutionary Party The answers are sometimes surprising Despite ratification of NAFTA for example Mexico has fallen behind Brazil and Chile in economic growth and rates of poverty Camp explains that lack of labor flexibility along with low levels of transparency and high levels of corruption make Mexico less competitive than some other Latin American countries The drug trade of course enhances corruption and feeds on poverty approximately 450 000 Mexicans now work in this sector Brisk clear and informed Mexico What Everyone Needs To Know R offers a valuable primer for anyone interested in the past present and future of our neighbor to the South Links to video interviews with prominent Mexicans appear throughout the text The videos can be accessed at through The Oxford Research Encyclopedia of Latin American History at <http://latinamericanhistory.oxfordre.com/page/videos> Asset Management Andrew Ang, 2014 Stocks and bonds Real estate Hedge funds Private equity If you think those are the things to focus on in building an investment portfolio Andrew Ang has accumulated a body of research that will prove otherwise In this book Ang upends the conventional wisdom about asset allocation by showing that what matters aren't asset class labels but the bundles of overlapping risks they represent
