authored several best selling books and enjoys new challenges Charles D Nilson is a senior program manager for EDS HP and has led many successful SAP implementation teams over the years He is a PMI PMP and is SAP Partner Academy certified in MM and PP Tim Rhodes is a senior SAP technical consultant for EDS HP and a Basis infrastructure veteran focused on implementing migrating and upgrading SAP Business Suite and NetWeaver solutions Tim is also an SAP certified technical consultant OCP MCSE and HP Master ASE Detailed Information on How To Define the business vision driving your implementation and use it to design your solution Use TCO techniques to fully understand SAP s financial impact in your organization Structure your SAP project management office business teams technical support organization and overall project team Size plan and test your SAP infrastructure to deliver the best performance and availability at the best cost Integrate SAP into an SOA environment Install and configure SAP Business Suite and NetWeaver components Perform basic functional configuration testing and change management activities Enable a smooth transition by successfully performing the critical tasks that immediately precede SAP Go Live Choose the right mix of tools and applications to test manage and monitor SAP Prepare your SAP Operations team for its post implementation responsibilities [Universal Worklist with SAP NetWeaver Portal](#) Darren Hague, This comprehensive technical guide shows developers technical consultants and solution architects all the ins and outs of the Universal Worklist in SAP NetWeaver Portal This hands on workshop takes you step by step from standard configuration to working with different user interfaces and covers workflow integration from any back end systems Readers get an exclusive look under the hood of the Universal Worklist functionality and gain insight on future application scenarios By reading this guide you will be able to reconfigure existing applications to conform with the UWL write UWL specific applications or transactions and adapt data sets in order to have the appropriate work item IDs created Many screenshots and code samples illustrate the processes in detail allowing you work with the UWL functionality appropriately just as you will soon be doing in your daily work Highlights Standard UWL configuration Connecting SAP systems items in the UWL changing the basic look Customizing UWL Custom views custom work item handlers Integrating other types of workflow Ad hoc workflow publishing workflow 3rd party workflow UWL behind the scenes Performance tuning working around limitations SAP function modules

SAP on DB2 9 for z/OS: Implementing Application Servers on Linux for System z Lydia Parziale,Karen Bogart,Gerard Ceruti,Anbu Govindasamy,Sabine Jaeschke,Jörg Maier,Jochen Röhrig,Jon von Wolfersdorf,IBM Redbooks,2009-04-28 The power of the IBM System z combined with the flexibility of Linux on System z provides the ideal platform on which to implement SAP application servers System z provides the benefits of continuous availability high performance scalability and ease of management these qualities support and complement mission critical SAP business applications This IBM Redbooks publication focuses on the implementation of SAP application servers on Linux on System z to leverage the synergy of this combination of products It provides detailed information to guide you through the planning process including resource sharing considerations hardware and software requirements

support and maintenance This book takes you through the steps to prepare the system environment describing system and network configurations and demonstrates the procedures for installing and customizing your system It describes in detail how to install SAP application servers in z VM Linux images including the installation of SAP and Java and hipersockets Finally it provides guidance for performance tuning and introduces some useful monitoring tools *SAP Applications on IBM PowerVM* Irene Hopf,Christian Bartels,Elmar Billen,James Nugen,Walter Orb,Olaf Rutz,IBM Redbooks,2011-11-01 IBM invented the virtualization technology starting in the 1960s on the mainframe and the functionalities evolved and were ported to other platforms and improved the reliability availability and serviceability RAS features With virtualization you achieve better asset utilization reduced operating costs and faster responsiveness to changing business demands Every technology vendor in the SAP ecosystem understands virtualization as slightly different capabilities on different levels storage and server hardware processor memory I O resources or the application and so on It is important to understand exactly what functionality is offered and how it supports the client s business requirements In this IBM Redbooks publication we focus on server virtualization technologies in the IBM Power Systems™ hardware AIX IBM i and Linux space and what they mean specifically for SAP applications running on this platform SAP clients can leverage the technology that the IBM Power Systems platform offers In this book we describe the technologies and functions what they mean and how they apply to the SAP system landscape

Administrator's Guide to Microsoft Office 2007 Servers J. Peter Bruzzese,Ronald Barrett,2007-12-20 Explore the features the installation and the configuration of these seven new servers and gain a conceptual understanding of how your users will be working with them Forms Server 2007 Groove Server 2007 Communications Server 2007 PerformancePoint Server 2007 Project Portfolio Server 2007 Project Server 2007 SharePoint Server 2007 for Search Along with the release of Windows Vista and the revamped suite of Office 2007 products Microsoft has released a line up of new servers Exchange Server 2007 and SharePoint Server 2007 are two of the major players but there are also seven additional Office 2007 Servers of which you may not be aware that can add productivity to your environment in a variety of ways Each of the seven servers is unique and requires distinct assessment to determine if your company can benefit from any given server This book provides you with the knowledge you need to determine the use of each server the prerequisites and procedures of server installation the post installation configuration options so you can set it and forget it and finally a look at the client side applications that interact with the new servers Detailed information on how to Install each of the seven Office 2007 Servers including both standalone and server farm installation Handle post installation configuration options for each of the seven Office 2007 Servers Create InfoPath forms to post to your InfoPath Forms Server Work with the Groove client once your Groove Servers are in place Communicate more efficiently within your company using a Communications Server and the new Communicator 2007 client Handle larger projects through Project Professional 2007 with your new Project Server and Project Portfolio Server Understand Business Intelligence BI in order to manage your

company's future through PerformancePoint Server Improve your ability to search for content through your SharePoint Server for Search J Peter Bruzzese is an independent consultant and trainer for a variety of clients including CBT Nuggets New Horizons and ONLC.com Over the past ten years Peter has worked for with Goldman Sachs CommVault Systems and Microsoft to name a few He focuses on corporate training and has had the privilege of working with some of the best trainers in the business of computer education In the past he specialized in Active Directory and Exchange instruction as well as certification training Peter is a contributor to Redmond Magazine WindowsITPro magazine and several tech sites and a speaker for the MCP TechMentor Conferences Ronald Barrett is the director of information technology for an accounting and financial services firm while also serving as chairman for the Technology Executive Committee for CPAmerica a national CPA network consisting of 15 000 professionals

SAP Security Configuration and Deployment Joey Hirao, 2008-11-18
Throughout the world high profile large organizations aerospace and defense automotive banking chemicals financial service providers healthcare high tech insurance oil and gas pharmaceuticals retail telecommunications and utilities and governments are using SAP software to process their most mission critical highly sensitive data With more than 100 000 installations SAP is the world's largest enterprise software company and the world's third largest independent software supplier overall Despite this widespread use there have been very few books written on SAP implementation and security despite a great deal of interest There are 220 000 members in an on line SAP community seeking information ideas and tools on the IT Toolbox Website alone Managing SAP user authentication and authorizations is becoming more complex than ever as there are more and more SAP products involved that have very different access issues It's a complex area that requires focused expertise This book is designed for these network and systems administrator who deal with the complexity of having to make judgmental decisions regarding enormously complicated and technical data in the SAP landscape as well as pay attention to new compliance rules and security regulations Most SAP users experience significant challenges when trying to manage and mitigate the risks in existing or new security solutions and usually end up facing repetitive expensive re work and perpetuated compliance challenges This book is designed to help them properly and efficiently manage these challenges on an ongoing basis It aims to remove the Black Box mystique that surrounds SAP security The most comprehensive coverage of the essentials of SAP security currently available risk and control management identity and access management data protection and privacy corporate governance legal and regulatory compliance This book contains information about SAP security that is not available anywhere else to help the reader avoid the gotchas that may leave them vulnerable during times of upgrade or other system changes Companion Web site provides custom SAP scripts which readers can download to install configure and troubleshoot SAP

SAP BASIS E-Magazine Pramod Gowda, In the era of digitalization learning is an art crafted with fascination I take the sole responsibility of drafting and publishing the contents of the e magazine that is designed in line with the real time industry standards The self paced e learning magazine is an opportunity for the learners

looking forward to get a broader view of different aspects of SAP and related technologies The e magazine has been divided into six modules with each of them covering different areas of the subject This book has been published in view of audience from various backgrounds with a common goal of learning At the end is a quiz for a quick reflection of learning Overall the e book has been designed in a relatively simple yet largely efficient manner welcoming all the learners **Installation and**
