Black Jeremiah Sullivan Black, Chauncey F. Black, 1885 **21st Century Literacy** Renita Schmidt, Paul Lee
 Thomas, 2008-11-09 Renita Schmidt and P L Thomas The guiding mission of the teacher education program in the university
 where we teach is to create teachers who are scholars and leaders While the intent of that mission is basically sound in
 theory we instill the idea that teachers at all levels are professionals always learning and growing in knowledge that theory
 that philosophical underpinning does not insure that the students who complete our program are confident about the act or
 performance of teaching In our unique program students work closely with one teacher and classroom for the entire senior
 year and then are supervised and mentored during their first semester of teaching the program is heavily field based and it
 depends on the effectiveness of mentoring throughout the methods coursework and the first semester of full time teaching
 Students tell us this guidance and support is invaluable and yet we feel the disjuncture between university and school just as
 many of you in more traditional student teaching settings Students hear best practice information from us in methods classes
 and they receive ample exposure to the research supporting our field but have a hard time implementing research based
 practices in their cla room settings and an even harder time finding it in the classrooms around them **Checking for**
