Resource Constraints and Global Growth Efundem Agboraw, Aled Jones, 2017-10-03 With substantial risks arising from resource constraints on global growth serious questions are being posed about how a scarcity of finite resources may impact global social and political fragility The research which forms the core of this book focuses on how this scarcity will impact the financial sector especially through insurance pension and banking activities The UK finance sector which is considered to be amongst the most globalised is placed under the microscope and its approaches to food and oil are particularly noteworthy Interviews with senior financial experts are analysed alongside more traditional quantitative economic analysis to explore potential future impacts the scope of natural resource constraints and their impact on the

economy *Food Safety and Informal Markets* Kristina Roesel, Delia Grace, 2014-10-03 Animal products are vital components of the diets and livelihoods of people across sub Saharan Africa They are frequently traded in local unregulated markets and this can pose significant health risks This volume presents an accessible overview of these issues in the context of food safety zoonoses and public health while at the same time maintaining fair and equitable livelihoods for poorer people across the continent The book includes a review of the key issues and 25 case studies of the meat milk egg and fish food sectors drawn from a wide range of countries in East West and Southern Africa as part of the Safe Food Fair Food project It describes a realistic analysis of food safety risk by developing a methodology of participatory food safety risk assessment involving small scale producers and consumers in the process of data collection in a data poor environment often found in developing countries This approach aims to ensure market access for poor producers while adopting a realistic and pragmatic strategy for reducing the risk of food borne diseases for consumers **Energy Efficiency** Ming Yang, Xin Yu, 2015-02-21 This book discusses how energy efficiency benefits the global environment national energy security local pollution mitigation natural resource conservation and utility bill reduction In addition this book provides many hands on skills and knowledge to identify and develop energy efficiency projects The literature review shows that energy efficiency has become the first fuel in the world energy supply With empirical analyses this book indicates that without continued investment in energy efficiency neither China nor the U S could achieve their carbon emission reduction targets that were announced on November 13 2014 during the Beijing 2014 APEC meeting The authors argue that energy efficiency will become the first tool to mitigate climate change These include 1 identifying energy efficiency barriers 2 developing energy policies 3 investing in energy efficient technologies 4 undertaking project cost effectiveness analysis 5 de risking and financing energy efficiency projects 6 developing and managing energy service companies and 7 promoting urban transport efficiency Two case studies in energy efficiency improvement in electrical motors and industrial boilers are also presented This book is written for college and university students practitioners researchers consultants project developers and policy makers who want to dedicate their professional careers in global energy efficiency improvement climate change mitigation local clean air initiatives and energy bill reduction A Handbook of Case Studies in Finance Tarika Singh, 2017-06-20 This book links the theory of finance to the decisions related to various aspects of the financial management of an organisation In order to provide the reader with a better understanding of the concept of finance a theoretical guide to related terminology is included here The case studies brought together require students to look deep into the concepts of finance in order to solve the problems and issues they present The case studies here focus on important concepts of finance which help students to relate the concept with decision making processes **The Future of Post-Human Law** Peter Baofu, 2010-02-19 What makes the rule of law so special that it is to conscientiously punish the bad doers and reward the good ones such that where there is the rule of law peace and order are to be expected so that the rule of law is better than the rule of any individual

Take the case of international law as an illustration While different international courts have been busy going after the killers of innocent victims in Rwanda and Liberia they have turned a blind eye to the major powers which have killed on a much larger and more brutal scale by comparison innocent civilians in Iraq and Afghanistan just to cite two current examples Contrary to the conventional wisdom conveniently held by many in human history the rule of law has its other side which has not yet been systematically understood such that the rule of law is neither possible nor desirable to the extent that the defenders of legal institutions in human history would like us to believe Lest any misunderstanding hastily occur this is not to imply that the rule of law is absolutely useless or that the literature in jurisprudence and other related fields like political philosophy ethics law and economics and the sociology of law should be dismissed because of its scholarly irrelevance Of course neither of these two extreme views is reasonable either Instead this book provides an alternative better way to understand the nature of law in relation to its necessity and contingency in the context of justice while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other In the process this book offers a new theory to transcend the existing approaches in the literature in a new direction in that in the end there is no justice without injustice and that it will be transcended too This seminal project if successful will fundamentally change the way that we think about the nature of law from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate

Proceedings of the Regional Conference on Science, Technology and Social Sciences (RCSTSS 2016) Mohd Yusri Mohamad Noor,Badli Esham Ahmad,Mohd Rozaidi Ismail,Hasnizawati Hashim,Mohd Amli Abdullah Baharum,2018-07-20 This book features papers addressing a broad range of topics including psychology religious studies natural heritage accounting business communication education and sustainable development It serves as a platform for disseminating research findings by academicians of local regional and global prominence and acts as a catalyst to inspire positive innovations in the development of the region It is also a significant point of reference for academicians and students This collection of selected social sciences papers is based on the theme Soaring Towards Research Excellence presented at the Regional Conference of Sciences Technology and Social Sciences RCSTSS 2016 organised bi annually by Universiti Teknologi MARA Cawangan Pahang Malaysia

Politics in a Religious World Eric Patterson,2011-09-29 Politics in a Religious World examines why US diplomacy often misunderstands if not ignores the role of religion in international conflicts After the Cold War it became evident that religion was a key factor in many conflicts including Bosnia Rwanda and Afghanistan However the US failed to correctly appreciate this role for example predicting the failure of the Iranian theocrats in 1979 Today most of the security and foreign relations challenges faced by the US are infused with religious factors from its relations with Iran to the Iraq war and jihadist terrorists Religion however can also play a transnational role when it comes to human rights conflict resolution and political mobilization Written by an expert in the field the book

analyzes why the US deliberately avoids the religious dimension of international affairs and proposes a comprehensive approach to a religiously literate US foreign policy Politics in a Religious World addresses a needed area and will appeal to anyone studying US foreign policy as well as the interaction of religion and international affairs
