How to Plan Differentiated Reading Instruction Sharon Walpole, Michael C. McKenna, 2017-05-16 Tens of thousands of K-3 teachers have relied on this book now revised and expanded with more than 50% new material to plan and deliver effective literacy instruction tailored to each student's needs. The authors provide a detailed framework for implementing differentiated small group instruction over multiweek cycles. Each component of the beginning reading program is addressed: phonological awareness, word recognition, fluency, vocabulary, and comprehension. In a large size format for easy photocopying, the book includes dozens of reproducible lesson plans, instructional activities, assessment forms, and other tools. Purchasers get access to a webpage where they can download and print the reproducible materials. Pullen, Michael J. Kennedy, 2018-10-04 Of the many issues facing special education and general education today, it is difficult to imagine one more important or timely than response to intervention (RTI). Almost overnight, RTI has become standard practice across the nation. Unfortunately, RTI remains ill-defined, falls far short of its evidence-based practice goal, is almost invariably misused, and often results in more harm than good. Nevertheless, as a conceptual framework, RTI has great potential for ensuring that students with disabilities receive appropriate evidence-based instruction. The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention (RTI) and its relation to multi-tiered systems of support (MTSS) in both special education and general education. Although the two terms are currently used interchangeably, distinct differences exist between them. Therefore, chapters are dedicated to distinguishing the two concepts, RTI and MTSS, and describing each one's unique role in both general and special education. In addition, the authors recommend a third term, Multi-Tiered Instruction, to differentiate the practices related to the purpose of the specific intervention.
