

# RadioShack®

Cat. No. 15-1950

OWNER'S MANUAL

Please read before using this equipment.

## Wireless IR Remote Extender

Thank you for buying the RadioShack Wireless IR Remote Extender. The extender increases your existing remote control's operating range. The extended range lets you control your TV, VCR, stereo, CD player, or cable converter from greater distance than normally possible with existing remote controls without concern for line-of-sight requirements.

Features include:

**Full remote Control Compatibility** — receives, converts, and relays infrared signals from virtually any infrared remote control.

**Powerful Radio Frequency** — lets you control audio/video equipment from up to 100 feet away, even from another room in your house.

[warning and caution (risk of electric shock) wordings here]

[lightning and exclamation wordings here]

## INSTALLATION

Your RadioShack Wireless Infrared Remote Control Extender includes a transmitter and a receiver. The transmitter senses the infrared signals from your audio/video equipment's remote controls and converts them into wireless transmissions. The receiver senses these transmissions converts them back into identical infrared signals then relays them to your audio/video equipment

### Installing the Receiver

Follow these steps to install the receiver.

1. Place the receiver in front of the audio/video equipment and position it:
  - o Within 20 feet of the audio/video equipment's remote sensor
  - o With the receiver's front directly in front of the audio/video equipment's remote sensor
2. Fully extend the telescopic antenna.

**Note:** Rotate and adjust the receiver's telescopic antenna for the best reception when you use it for the first time.
