Cityscapes and Monuments of Western Asia Minor Eva Mortensen, Birte Poulsen, 2017-12-21 Cityscapes consist of houses streets civic buildings sanctuaries tombs monuments and inscriptions created by multiple generations of citizens and foreigners with an interest in the city they are interpreted and reinterpreted as expressions of past lives changing relations of power memories and various identities The present volume publishes 25 contributions written by scholars specializing in the history and archaeology of western Asia Minor New and well known material literary epigraphical numismatic and archaeological is presented and analyzed through the twin lenses of memory and identity The contributions cover more than 1000 years of cultural diversity during changing political systems from the Lydian and Persian hegemony in the Archaic period through Athenian supremacy and Persian satrapal rule in the Classical period then autocratic kingship in Hellenistic times until finally more than half a millennium of Roman rule Identities are voiced through several media and visible at many levels of the ancient societies So are the places of memory the *Lieux de Mémoire* and the studies presented here provide new insights into how human beings chose deliberately or subconsciously to commemorate their past and their ancestors and how identity was displayed and expressed under shifting political rule *Sanctuaries in Roman Dacia* Csaba Szabo, 2018-11-27 This book focuses on lived ancient religious communication in Roman Dacia Testing for the first time the Lived Ancient Religion approach in terms of a peripheral province from the Danubian area this work looks at the role of sacralised spaces known commonly as sanctuaries in the religious communication of the province **Intervisuality** Andrea Capra, Lucia Floridi, 2023-03-06 Intertextuality is a well known tool in literary criticism and has been widely applied to ancient literature with perhaps surprisingly classical scholarship being at the frontline in developing new theoretical approaches By contrast the seemingly parallel notion of intervisuality has only recently begun to appear in classical studies In fact intervisuality still lacks a clear definition and scope Unlike intertextuality which is consistently used with reference to the interrelationship between texts the term intervisuality is used not only to trace the interrelationship between images in the visual domain but also to explore the complex interplay between the visual and the verbal It is precisely this hybridity that interests us Intervisuality has proved extremely productive in fields such as art history and visual culture studies By bringing together a diverse team of scholars this project aims to bring intervisuality into sharper focus and turn it into a powerful tool to explore the research field traditionally referred to as Greek literature [Yearbook of International Organizations 2014-2015, Volumes 1a & 1b \(Set\)](#) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **The Ordered Day** James Ker, 2023-03-21 Traces how the day has served as a key organizing concept in Roman culture and beyond How did ancient Romans keep track of time What constituted a day in ancient Rome was not the same twenty four hours we know today In *The Ordered Day* James Ker traces how the day served as a key organizing concept both in antiquity and in modern receptions of ancient Rome Romans

used the story of how the day emerged as a unit of sociocultural time to give order to their own civic and imperial history Ancient literary descriptions of people's daily routines articulated distinctive forms of life within the social order And in the imperial period and beyond outsiders such as early Christians in their monastic rules and modern antiquarians in books on daily life ordered their knowledge of Roman life through reworking the day as a heuristic framework Scholarly interest in Roman time has recently moved from the larger unit of the year and calendar to smaller units of time especially in the study of sundials and other timekeeping technologies of the ancient Mediterranean Through extensive analysis of ancient literary texts and material culture as well as modern daily life handbooks Ker demonstrates the privileged role that small time played and continues to play in Roman literary and cultural history Ker argues that the ordering of the day provided the basis for the organizing of history society and modern knowledge about ancient Rome For readers curious about daily life in ancient Rome as well as for students and scholars of Roman history and Latin literature *The Ordered Day* provides an accessible and fascinating account of the makings of the Roman day and its relationship to modern time structures

The Neronian Grotesque Scott Weiss, 2023-11-13 During the reign of Nero Roman culture produced some of its most spectacular works of art and literature and some of its strangest This study explores these effects across textual and visual media in an integrated way Weiss analysis allows for appreciation of the shared strategies of composition overlaps between literary and visual rhetoric the role of context in shaping the reception of a work and the authority of the reader viewer to generate meaning

The volume offers an account of Roman visual literary interactions in the mid first century that considers these dynamics as informing broad cultural phenomena The results reveal features pervasive in a literary and artistic culture invested in exploring the edges of expression The Neronian Grotesque is a fascinating study on the literary and artistic production in the Neronian period and has wider implications for anyone working in the field of Roman cultural history and visual studies more broadly

Plutarch's Pragmatic Biographies Susan G. Jacobs, 2017-10-10 In Plutarch's Pragmatic Biographies Susan Jacobs argues for a major revision in how we interpret the Parallel Lives She integrates the existing focus on moral issues into the much broader paradigm of effective leadership found in Plutarch's Moralia There in addition to moral virtue the successful leader needed good critical judgment persuasiveness and facility in managing alliances and rivalries The analysis of six sets of Lives shows how Plutarch carefully portrayed Greek and Roman leaders of the past assessing situations and solving problems that paralleled those faced by his politically active audience By linking victories and defeats to specific strategic insights and practical skills Plutarch created pragmatic biographies that could instruct statesmen and generals of every era
