language of the Creator Nurul Kabir, 2020-02-14 In this book for the first time in human history I show definite proof that the script of the Arabic language is the Divine language In this language word meanings are given by meanings hidden in the shape of the individual alphabets and they draw a picture of the word in question This built in picture dictionary enormously simplifies language learning by beginners The definitions of the words are provided on a scientific basis and this principle extends to words for atom or butterfly which depict the structure of the atom or butterfly s life cycle unbelievable as it may sound The findings of this book imply that the theories of language development in humans based on mimicry of animal sounds are incorrect and that Arabic can be learned in a simpler and efficient way The book also describes the difference between lughatul Arabia or the present day Modern Standard Arabic and Lisanun Arabiun which is the true Divine language of the Creator as described in the Qur an The intelligent single letter meanings in words built in picture dictionary and scientific explanations will make it easier for learning the language of the Creator and knowing Divine secrets and directions both in science and religion **American Book Publishing Record** , 2006
