

## Child Case Study Report

- I. Introduction- In a brief paragraph provide context for case study, (child's name, birthday age, gender, grade level, class observed in background, physical characteristics)
- II. Sum up student's characteristics for each developmental domain.
  - a. Supply clear and well-organized analysis of the student's development.
  - b. Support analysis with evidence (examples and if possible some of the child's work)
  - c. Note discrepancies from expected development
  - d. Show ways case illustrates diversity in development.
  - e. Cite concepts evidenced in child's work and play.
- III. Suggestions - Make suggestions for giving positive support to student's developmental progression.

Suggestions should reference background dynamics that are important influences on this particular student's development.
- IV. Challenges: In two or three paragraphs, discuss what aspects of development you were not able to gather sufficient data. (What were the reasons?) Describe what additional data you would need to conquer these challenges.

### Additional Information to attach to Child Case Study Report
