Saps Training For 2014:

Forensic Justice Beulah Shekhar, Purvi Pokhariyal, 2024-03-18 Forensic science is playing an increasingly important role in criminal investigations as it provides scientific methods and techniques to gather and analyse evidence from crime scenes. Forensic evidence can be crucial in identifying suspects, linking them to the crime scene, and helping to secure convictions in court. In this sense, forensic science is seen as an aid to criminal investigation, providing reliable and objective evidence that can be used to uncover the truth behind criminal activities. The integration of forensic science with law and criminology is creating a new era of progressive thinking, where advanced techniques are being developed to better understand the nature of crime and the behaviour of criminals. With the help of forensic science, investigators can obtain speedy justice and bring criminals to book. However, this requires appropriate measures to be taken for the efficient execution of forensic investigations, including the use of modern technology and the training of professionals in the latest forensic techniques. Given the importance of forensic science in the criminal justice system, it is essential to have a comprehensive understanding of its different aspects. This includes the collection, preservation, and analysis of forensic evidence, as well as the interpretation of this evidence in the context of criminal investigations. This book covers these topics in detail, providing valuable insights for professionals, practitioners, academics, and students of the related fields.

The Handbook of Adult and Continuing Education Tonette S. Rocco, M. Cecil Smith, Robert C. Mizzi, Lisa R. Merriweather, Joshua D. Hawley, 2023-07-03 Co-published with Colleges and universities are increasingly becoming significant sites for adult education scholarship in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract non-traditional, i.e. older adult learners, to remain viable, both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as what learning theories are useful for understanding adult learning. How are higher education institutions changing in response to the surge of adult students? What academic programs are providing better learning and employment outcomes for adults in college? Adult education scholars can offer much to the policy debates taking place in higher education. A main premise of this handbook is that adult and continuing education should not simply respond to rapidly changing social, economic, technological, and political environments across the globe, but should lead the way in preparing adults to become informed, globally connected, critical citizens who are knowledgeable, skilled, and open and adaptive to change and uncertainty. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult and continuing education, the programs and resources available to adult learners, and of opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice. Adult education is a discipline that foresees a better tomorrow, and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times, ask questions, and to help the field flourish. The Handbook is divided into five sections. The first, Foundations, situates the field by describing the

developments core debates perspectives and key principles that form the basis of the field The second Understanding Adult Learning includes chapters on adult learning adult development motivation access participation and support of adult learners and mentoring Teaching Practices and Administrative Leadership the third section offers chapters on organization and administration program planning assessment and evaluation teaching perspectives andragogy and pedagogy public pedagogy and digital technologies for teaching and learning The fourth section is Formal and Informal Learning Contexts Chapters cover adult basic GED and literacy education English as a Second Language Programs family literacy prison education workforce development military education international development education health professions education continuing professional education higher education human resource development and workplace learning union and labor education religious and spiritual education cultural institutions environmental education social and political movements and peace and conflict education The concluding Contemporary Issues section discusses decolonizing adult and continuing education adult education and welfare teaching social activism lesbian gay bisexual trans queer and straight allies gender and its multiple forms disability older adults and intergenerational identities race and ethnicity working class whiteness and privilege and migrants and migrant education The editors culminate with consideration of next steps for adult and continuing education and priorities for the future

New South African Review 5 Gilbert M Khadiagala, Devan Pillay, Roger Southall, Prishani Naidoo, 2015-11-01 A series of essays explaining the impact of the events at Marikana upon the South African perspective of police and the keeping of order This fifth volume in the New South African Review series takes as its starting point the shock

wave emanating from the events at Marikana on 16 August 2012 and how it has reverberated throughout politics and society. Some of the chapters in the volume refer directly to Marikana. In others the influence of that fateful day is pervasive if not direct. Marikana has for instance made us look differently at the police and at how order is imposed on society. Monique Marks and David Bruce write that the massacre has come to hold a central place in the analysis of policing and broader political events since 2012. The chapters highlight a range of current concerns: political, economic and social. David Dickinson's chapter looks at the life of the poor in a township from within. In contrast the chapter on foreign policy by Garth le Pere analyses South Africa's approach to international relations in the Mandela, Mbeki and Zuma eras. Anthony Turton's account 'When gold mining ends' is a chilling forecast of an impending environmental catastrophe. Both Devan Pillay and Noor Nieftagodien focus attention on the left and in different ways ascribe its rise to a new politics in the wake of Marikana. The essays in NSAR 5: Beyond Marikana present a range of topics and perspectives of interest to general readers but the book will also be a useful work of reference for students and researchers.

Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31. This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service (SAPS). By means of a historical analysis of South Africa, this book introduces a new concept: police frontierism, which illuminates the nature of the relationships between the police, policing and boundaries and can potentially be used for future case study research. Drawing on a wealth of research, this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary. Focusing on cases of high density police operations, public order policing and the recent policing of the COVID-19 lockdown, this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa. This book will be of interest to scholars and students interested in policing in post-colonial societies characterised by high levels of violence as well as police work and police militarization.

Police Work and Identity Andrew Faull, 2017-09-07. This is a book about the men and women who police contemporary South Africa. Drawing on rich original ethnographical data, it considers how officers make sense of their jobs and how they find meaning in their duties. It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo-liberalising regimes such as South Africa can be traced to the day-to-day experiences and ambitions of the average police officer. It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work. By focusing on police officers, this book positions the individual in primacy.

over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

Africa and Sustainable Global Value Chains Regina Frei,Sherwat Ibrahim,Temidayo Akenroye,2022-02-07 This book contains a collection of studies on the interactions between businesses in Africa and Global Value Chains GVCs in terms of social environmental and economic sustainability This is particularly pertinent given the asymmetrical power distribution between the global buyer and the African supplier their governance relationships and the ongoing competitive pressures to reduce costs and increase flexibility to meet GVC demands Rather than focusing on the sustainability of a single organization GVCs address the sustainability of inter firm value chains and global industries as a whole With little differentiation between value chain creation and social environmental degradation extending to people and raw material extraction upstream and disposal or recycling downstream sustainability issues need to be at the forefront of African business research interests Nowadays sustainability is considered a competitive advantage for a firm looking to join a GVC Whether sustainability is approached from the viewpoint of an exporting firm motivated to join a GVC in its respective industry or whether a firm s continuing contractual or collaborative relationship with a buyer depends on its compliance with sustainability standards both approaches focus on the ability of firms in Africa to benefit from joining sustainable GVCs
