Dividends

- Dividends received by individuals from South African companies are generally exempt from income tax, but dividends tax, at a rate of 20%, is withheld by the entities paying the dividends to the individuals. Dividends received by South African resident individuals from REITs (listed and regulated property owning companies) are subject to income tax, and non-residents in receipt of these dividends are only subject to dividends tax.

Foreign Dividends

- Most foreign dividends received by individuals from foreign companies (withholding of less than 20% in the foreign company) are taxable at a maximum effective rate of 20%. No deductions are allowed for expenditure to produce foreign dividends.

Interest exemptions

- Interest from a South African source, earned by any natural person under 65 years of age, up to R215 000 per annum, and persons 65 and older, up to R24 500 per annum, is exempt from income tax.
- Interest earned by non-residents, who are physically absent from South Africa for at least 362 days during the 12 month period, before the interest accrues and the interest-bearing debt is not effectively connected to a fixed place of business in South Africa, is exempt from income tax.

Deductions

Retirement fund contributions

- Amounts contributed to pension, provident and retirement annuity funds during a year of assessment are deductible by members of those funds. Amounts contributed by employers and taxed as fringe benefits are treated as contributions by the individual employees. The deduction is limited to 27.5% of the greater of the amount of remuneration for IRP6 purposes or taxable income (both excluding retirement fund lump-sums and severance benefits). The deduction is further limited to the lower of R200 000 or 27.5% of taxable income before the inclusion of a taxable capital gain. Any contributions exceeding the limitations are carried forward to the immediately following year of assessment and are deemed to be contributed in that following year. The amounts carried forward are reduced by contributions set off against retirement fund lump-sums and retirement annuities.

Medical and disability expenses

In determining tax payable, individuals are allowed to deduct:

- Monthly contributions to medical schemes (a tax rebate referred to as a medical scheme flow tax credit) by the individual who paid the contributions up to R2437 per month of the first two persons covered by those medical schemes, and R234 for each additional dependent; and
- In the case of:
 - An individual who is 65 years and older, or if an individual, his or her spouse, or his or her child is a person with a disability, 33.3% of the sum of qualifying medical expenses paid and borne by the individual, and an amount by which medical scheme contributions paid by the individual exceed three times the medical scheme flow tax credits for the tax year; or
 - Any other individual, 27% of an amount equal to the sum of the qualifying medical expenses paid and borne by the individual, and an amount by which medical scheme contributions paid by the individual exceed four times the medical scheme flow tax credits for the tax year, limited to the amount which exceeds 27.5% of taxable income (including retirement fund lump-sums and severance benefits).

Donations

- Deductions in respect of donations to certain public benefit organisations are limited to 10% of taxable income (including retirement fund lump-sums and severance benefits). The amount of donations exceeding 10% of the taxable income is treated as a donation to qualifying public benefit organisations in the following tax year.

Allowances

Subsistence allowances and advances

Where the recipient is obliged to spend at least one night away from his or her usual place of residence on business, and the accommodation to which that allowance or advance relates is

in the Republic of South Africa, and the allowance or advance is granted to pay for meals and incidental costs or incidental costs only, an amount, published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs, is deemed to have been expended per day.

Where the accommodation to which that allowance or advance relates is outside the Republic of South Africa, a specific amount per country is deemed to have been expended. Details of these amounts are published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs.

Where the recipient is by reason of the duties of his or her office or employment obliged to spend a part of a day away from his or her usual place of work or employment, a reimbursement or advance for expenditure actually incurred by the recipient is exempt if the recipient is allowed by his or her principal to incur expenditure on meals and other incidental costs for that part of a day and the amount of the expenditure does not exceed an amount published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs.

Travelling allowance

Rates per kilometre, which may be used in determining the allowable deduction for business travel against an allowance or advance where actual costs are not claimed, are determined using the table published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Filing of rate per kilometre in respect of motor vehicles.

Notes:

- 30% of the travelling allowance must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- No fuel cost may be claimed if the employee has not borne the full cost of fuel used in the vehicle, and no maintenance cost may be claimed if the employee has not borne the full cost of maintaining the vehicle (e.g. if the vehicle is covered by a maintenance plan).
- The fixed cost must be reduced on a pro-rata basis if the vehicle is used for business purposes for less than a full year.
- The actual distance travelled during a tax year, and the distance travelled for business purposes substantiated by a log book, are used to determine the costs which may be claimed against a travelling allowance.

Alternatively:

Where an allowance or advance is based on the actual distance travelled by the employee for business purposes, no tax is payable on an allowance paid by an employer to an employee, up to the rate published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Filing of rate per kilometre in respect of motor vehicles, regardless of the value of the vehicle.

However, this alternative is not available if other compensation in the form of an allowance or reimbursement (other than for parking or toll fees) is received from the employer in respect of the vehicle.

Tax cases together with human rights and investment cases and administrative guidelines in all five countries are also included in the analysis. The study concludes with recommendations for improving each of the five countries' tax law and procedures especially in the area of dispute resolution. The author's goal is to extend the existing body of knowledge of the BRICS international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance, an approach which facilitates both outbound and inbound FDI, simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty.
