Militant Competition Justin Conrad, William Spaniel, 2021-09-30 Militant groups often use violence perversely to gain attention and resources In this book the authors analyze how terrorist and rebel organizations compete with one another to secure funding and supporters The authors develop a strategic model of competitive violence among militant groups and test the model's implications with statistical analysis and case studies A series of model extensions allow the authors to incorporate the full range of strategic actors focusing in particular on government efforts to counter and deter violence The results indicate that the direct effects of competition are not as clear as they may seem and interventions to alter competitive incentives may backfire if states are not careful This is a timely contribution to a growing body of political economy research on militant group fragmentation rivalry fratricide and demonstrative violence

Policy Mitra Schottli and Pauli have crafted a remarkably deep analysis of India's foreign policy. They have not only reviewed the details of India's foreign affairs itself, no small task, but they have done so in an analytic framework grounded in a profound evaluation of the intertwining of domestic and foreign policy choices and compunctions. As contemporary India has emerged as one of the world's great powers, great in every sense of that term, this book is essential reading for policymakers, diplomats, scholars, and students of Indian affairs and world affairs. *Statecraft and Foreign Policy* is a tour de force that will define how we think of India in global politics for decades to come.

Bruce Bueno de Mesquita, Julius Silver Professor of Politics, New York University, USA. A sweeping overview in holistic perspective. Covers independent India's 75 years, narrating policy development and diplomatic actions. Incisive, balanced, and insightful.

Kisan S. Rana, Emeritus Professor and Former Ambassador of India to Germany. This book offers both a wide compass of Indian foreign policy across its 76 years, but also a focused lens that assesses change and continuity across different periods and varied dimensions of foreign policy. Domestic and international variables are brought together in the analysis, with a focus on how the Prime Ministers think about and visualize their foreign policies. Each chapter provides a synoptic assessment, including additional readings, making it an excellent reference that brings analysis of foreign policy up to date. The discussions of India's multilateral engagements on trade, climate change, and international negotiations is a valuable addition to usual bilateral discussions of foreign policies.

Aseema Sinha, Wagener Chair of South Asian Politics and George R. Roberts Fellow at Claremont McKenna College in California, USA. The authors have done the almost impossible; they have provided a synopsis of the most important phases, relationships, and issues that mark the country's policies beyond its borders. And they have done it engagingly and with sophistication, free of jargon and abstruse theorizing, and yet with a penetrating point of view.

Professor Kanti Bajpai, Lee Kuan Yew School of Public Policy at the National University of Singapore.
