Indications for Discharge:

- Changes in level of care; different setting necessitated for care; client does not need additional care.

Discharge Education:

- Discharge instructions discussed; instructions utilize patient accessible language; patient has communicated an accurate understanding of instructions and rationale for any continuing care at their next residence.

Equipment to Discharge:

- Any personal belongings brought with or acquired during stay; valuables on hold in office; medications; assistive devices; medical records.

Underlying Principles

Discharge planning Begins AT ADMISSION, and;

- Should prepare for the functional ability of the client: this includes whether they have caregivers at home, or if they're in need of one.
- Should include an assessment of the client's previous residence: if they're returning there, identify if the dwelling need any structural adaptations or equipment.
- A referral for social services can be made as needed to address gaps in the clients support system or resources.
- Convey health status and needs to concerned parties and community service providers.
- Includes documentation from the provider either approving or disapproving of cessation of care. Certain clients have the right to leave at any time

Nursing Interventions

Transferring/discharging a client:

1. Confirm both the date and time of departure, as well as the validity of the clients future residence.
2. Arrange for transportation detail as necessary
3. Communicate departure details to client
4. Complete documentation
5. Collect and prepare the patients discharge equipment
6. Prepare the client to discharge appropriately: dressed and groomed according to their desires.
7. Give a transfer report.
