## **The National Benchmark Tests (NBTs) at Stellenbosch University 2016-intake**

---

### **1. What are the NBTs?**

The National Benchmark Tests (NBTs) are an assessment test for first-year applicants to higher education. The NBTs are designed to measure a writer's ability to transfer understanding of academic literacy (language skills), quantitative literacy (numerical skills) and Mathematics to the demands of tertiary (higher education) coursework.

There are two tests. The AQL combines Academic Literacy and Quantitative Literacy in one multiple-choice test. There are seven timed sections, requiring three hours writing time. The second test is Mathematics (MAT), which is also multiple-choice with three hours allowed.

The NBTs are managed by the *Alternative Admissions Research Project* at the University of Cape Town. More information on the NBTs are available on their website at [www.nbt.ac.za](http://www.nbt.ac.za).

### **2. Who needs to write the NBTs for Stellenbosch University (SU)**

It is compulsory for ALL prospective first-year students at SU, regardless of the matriculation year, studies at another higher education institution, or examination system followed, to write the National Benchmark Tests. The only applicants who need NOT write the NBTs are students applying for admission to a second university degree as well as students with a B Tech degree.

### **3. How do I register to write the NBTs?**

Registration to write the NBTs is done through the internet on [www.nbt.ac.za](http://www.nbt.ac.za). Note that you will need your official South African ID or foreign passport in order to complete the registration process.

Test fees are non-refundable and can be paid at any EasyPay point. For more information on the fees, please visit [www.nbt.ac.za](http://www.nbt.ac.za)

Registration is valid only for the specific date and location you select and must be done at least three weeks prior to the desired test date. If you do not have access to the internet, or encounter problems during the registration process, you may either call 021-650-3523 or send an e-mail to [nbt@uct.ac.za](mailto:nbt@uct.ac.za) for assistance.

**Handbook of Test Security** James A. Wollack,John J. Fremer,2013-09-02 High stakes tests are the gatekeepers to many educational and professional goals As such the incentive to cheat is high This Handbook is the first to offer insights from experts within the testing community psychometricians and policymakers to identify and develop best practice guidelines for the design of test security systems for a variety of testing

genres Until now this information was scattered and often resided inside testing companies As a result rather than being able to learn from each other s experiences each testing entity was left to re create their own test security wheel As a whole the book provides invaluable insight into the prevalence of cheating and best practices for designing security plans training personnel and detecting and investigating misconduct to help develop more secure testing systems and reduce the likelihood of future security breaches Actual case studies from a variety of settings bring to life how security systems really work Examples from both domestic and international programs are provided Highlights of coverage include Best practices for designing secure tests Analysis of security vulnerabilities for all genres of testing Practical cheating prevention and detection strategies Lessons learned in actual security violations in high profile testing programs Part I focuses on how tests are delivered for paper and pencil technology based and classroom testing and writing assessment Each chapter addresses the prevalence of the problem and threats to security prevention and detection Part II addresses issues essential to maintaining a secure testing program such as planning and monitoring physical security the detection of group based cheating investigating misconduct and communicating about security related issues Part III examines actual examples of cheating how the cheating was done how it was detected and the lessons learned Part III provides insight into security issues within each of the Association of Test Publishers four divisions certification licensure clinical educational and industrial organizational testing Part III s conclusion revisits the issues addressed in the case studies and identifies common themes Intended for organizations professionals educators policy makers researchers and advanced students that design develop or use high stakes tests this book is also ideal for graduate level courses on test development educational measurement or educational policy

**Narrative Psychology and Vygotsky in Dialogue** Jill Bradbury,2019-09-06 This book draws together two

domains of psychological theory Vygotsky s cultural historical theory of cognition and narrative theories of identity to offer a way of rethinking the human subject as embodied relational and temporal A dialogue between these two ostensibly disparate and contested theoretical trajectories provides a new vantage point from which to explore questions of personal and political change In a world of deepening inequalities and increasing economic precarity the demand for free decolonised quality education as articulated by the South African Student Movement and in many other contexts around the world is disrupting established institutional practices and reinvigorating possibilities for change This context provokes new lines of hopeful thought and critical reflection on discontinuities across historical time theories of social and psychological developmental processes and the practices of intergenerational life particularly in the domain of education for the making of emancipatory futures This is essential reading for academics and students interested in Vygotskian and narrative theory and critical psychology as well as those interested in the politics and praxis of higher education

**Assessing Academic Literacy in a Multilingual Society** Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit

from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience
