**Eastern Europe** National Geographic Magazine,1941 *Great Desert Explorers* Andrew Goudie,2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy. However the informative and absorbing descriptions of the extraordinary journeys challenges and achievements of these intrepid figures are captivating. They risked their lives variously for good old fashioned epic adventure solitude fame the answer to mythical questions and some were even spies. They experienced fear excitement and hardship in their journeys into the unknown. There are many books on exploration but remarkably few on desert exploration. Moreover some of the great desert explorers of the last three hundred years are now very little remembered or appreciated in comparison say with those who ventured to the poles climbed Everest or sought the source of the Nile. Yet crossing unknown deserts is no less challenging. This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world's greatest deserts. There is also a brief introduction to each desert region. The many original quotations illustrations and maps contemporary figures as well as plates of a range of desert landscapes make this a colourful lively and informative read.
