Advertising and a Democratic Press C. Edwin Baker,2014-07-14 In this provocative book C Edwin Baker argues that print advertising seriously distorts the flow of news by creating a powerfully corrupting incentive the more newspapers depend financially on advertising the more they favor the interests of advertisers over those of readers Advertising induces newspapers to compete for a maximum audience with blandly objective information resulting in reduced differentiation among papers and the eventual collapse of competition among dailies Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Accounts and Papers of the House of Commons* Great Britain. The Payment System Mr.Bruce J. Summers,1994-12-15 This book makes a practical contribution to increased understanding of payment system design and management and of the relationship between the payment system and monetary policy The authors of the twelve papers included in the book are central banking experts from around the world who draw on their experiences in providing technical assistance to the central banks of the countries of the former U S S R

The Payment Order of Antiquity and the Middle Ages Benjamin Geva,2011-11-01 Examining the legal history of the order to pay money initiating a funds transfer the author tracks basic principles of modern law to those that governed the payment order of Antiquity and the Middle Ages Exploring the legal nature of the payment order and its underpinning in light of contemporary institutions and payment mechanisms the book traces the evolution of money payment mechanisms and the law that governs them from developments in Ancient Mesopotamia Ancient Greece Rome and Greco Roman Egypt through medieval Europe and post medieval England Doctrine is examined in Jewish Islamic Roman common and civil laws Investigating such diverse legal systems and doctrines at the intersection of laws governing bank deposits obligations the assignment of debts and negotiable instruments the author identifies the common denominator for the evolving legal principles and speculates on possible reciprocity At the same time he challenges the idea of law merchant as a mercantile creation The book provides an account of the evolution of payment law as a distinct cohesive body of legal doctrine applicable to funds transfers It shows how principles of law developed in tandem with the evolution of banking and in response to changing circumstances and proposes a redefinition of law merchant The author points to deposit banking and emerging technologies as embodying a great potential for future non cash payment system growth However he recommends caution in predicting both the future of deposit banking and the overall impact of technology At the same time he expresses

confidence in the durability of legal doctrine to continue to evolve and accommodate future payment system developments
