Esch, 2012-06-01 In 1907 pioneering labor historian and economist John Commons argued that U S management had shown just one symptom of originality namely playing one race against the other In this eye opening book David Roediger and Elizabeth Esch offer a radically new way of understanding the history of management in the United States placing race migration and empire at the center of what has sometimes been narrowly seen as a search for efficiency and economy Ranging from the antebellum period to the coming of the Great Depression the book examines the extensive literature slave masters produced on how to manage and develop slaves explores what was perhaps the greatest managerial feat in U S history the building of the transcontinental railroad which pitted Chinese and Irish work gangs against each other and concludes by looking at how these strategies survive today in the management of hard low paying dangerous jobs in agriculture military support and meatpacking Roediger and Esch convey what slaves immigrants and all working people were up against as the objects of managerial control Managers explicitly ranked racial groups both in terms of which labor they were best suited for and their relative value compared to others The authors show how whites relied on such alleged racial knowledge to manage and believed that the lesser races could only benefit from their tutelage These views wove together managerial strategies and white supremacy not only ideologically but practically every day at workplaces Even in factories governed by scientific management the impulse to play races against each other and to slot workers into jobs categorized by race constituted powerful management tools used to enforce discipline lower wages keep workers on dangerous jobs and undermine solidarity Painstakingly researched and brilliantly argued *The Production of Difference* will revolutionize the history of labor race in the United States *Dictionary of Occupational Titles* , 1965 Supplement to 3d ed called *Selected characteristics of occupations* physical demands working conditions training time issued by Bureau of Employment Security *Resources in Education* , 1997 **Definitions of titles** United States Employment Service, 1965 **Plumbers and Pipe Fitters Library: Materials, tools, roughing-in** Charles McConnell, 1977 Water supply drainage and calculations
