Lesson title: Classroom objects (lesson 2)

Step 1 — Desired Results
<p><i>Standard Outcomes for Learning (ACTFL Standard 1.1)— Answer s the question, what should students know, understand, and be able to do as a result of the lesson?</i></p> <ul style="list-style-type: none"> Students will be able to identify and read the names of some classroom objects in Arabic. (book, bag, pencil, compasses, stapler, chair and map) (كتاب، حقيبة، دباسة، مكرسي، مقترية) Say what they can see from classroom objects in Arabic and draw them.
Step 2 — Assessment Evidence
<p><i>Performance task— What will students do to show what they have learned?</i></p> <ul style="list-style-type: none"> Students will say, read and write the names of some classroom objects in Arabic. Students will talk about some classroom objects. Students will ask and answer about some classroom objects. Students will draw cards for classroom objects.
Step 3 — Learning Plan
<p><i>Learning activities - Answer s the question, how do I teach it?</i></p> <ul style="list-style-type: none"> After greeting students, I revise yesterday's classroom objects by using flashcards and the smart TV. (pen, chair, protractor, eraser and chalk) I ask students what can they find at their bags. I introduce the names of some classroom objects in Arabic using some real objects, flashcards and the classroom TV (with the help of Airplay). Students repeat the names of classroom objects in chorus and individually. I show students the flashcards for different classroom objects and they say their names. I play a memory game with the students. I ask two students to say as many words as she/he can about classroom objects. The winner is the students who can say more classroom words. I continue the game with other students. I divide students into two groups to talk about the usage of different classroom objects. Quiz- quiz Trade. I give each student a card. I ask each student to write a question (about a classroom object) on the front and answer on the . they leave their places to find a partner. One

Sample Lesson Plan Using Backward Design:

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K 16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike Differentiated Instructional Strategies for the Block Schedule Gayle H. Gregory, Lynne E. Herndon, 2010-06-28 Eliminate idea block with this practical resource that includes more than 100 planning tools matrixes rubrics templates and choice boards for differentiating instruction during extended learning blocks Teaching First-Year College Students Maggie Murphy, 2019-05-15 The first year experience is an emerging hot topic in academic libraries and many librarians who work with first year students are interested in best practices for engaging and retaining them Professional discussion and interest groups conferences and vendor sponsored awards for librarians working with first year students are popping up left and right A critical aspect of libraries in the first year experience is effective information literacy instruction for first year students Research shows that despite growing up in a world rife with technology and information students entering college rarely bring with them the conceptual understandings and critical habits of thinking needed for finding evaluating and ethically using information in both academic and real world contexts Faculty in upper level courses expect students to learn about the research process in their first year of college and instructors in the first year curriculum expect librarians to teach this to their students Despite all this designing teaching and evaluating effective information literacy instruction specifically for first year students is not necessarily intuitive for instruction librarians That is why Teaching First Year College Students A Practical Guide for Librarians is a comprehensive how to guide for both new and experienced librarians interested in

Diego Agent of Change: Addressing the Public Education State of Emergency Howard D.

Zmudy, 2025-08-26 The curriculum approach presented is called Students Empowering Themselves (SET). Going for the Magic SET is based on the quality of sameness within each human being: the desire to be happy. A consistent response we received for 50 years while working with youth and adults of all ages and cultures from around the world. We call it the Common Thread Denominator Experience. It is more than a simple intervention applicable in all learning environments; it is an evolution that unfolds as all participants come together as an inclusive community working toward a common goal. It is driven by empowerment and sustained by the joy of self-discovery, inspiring the desire to uncover more about oneself.

Schonert-Reichl, 2014 stated: Educating the heart refers to the importance of not only focusing on developing the cognitive aspects of our minds but also all the qualities that make us human: our hearts, and ultimately give us meaning in our lives. Research has demonstrated the positive impacts of developing our hearts: the way we feel and relate to one another. In fact, heart and mind learning are interconnected. SET is eclectic, including the application of evidence-based neuroscience to instructional strategies that are brain research-based and trauma-informed, securing a pathway to nurturing and building resilience. It offers a positive emotional learning environment that reduces stress and promotes building a foundation for a love to learn attitude where learners become leaders.
