Object Lessons Sarah Anne Carter, 2018-07-12 *Object Lessons How Nineteenth Century Americans Learned to Make Sense of the Material World* examines the ways material things objects and pictures were used to reason about issues of morality race citizenship and capitalism as well as reality and representation in the nineteenth century United States For modern scholars an object lesson is simply a timeworn metaphor used to describe any sort of reasoning from concrete to abstract But in the 1860s object lessons were classroom exercises popular across the country Object lessons helped children to learn about the world through their senses touching and seeing rather than memorizing and repeating leading to new modes of classifying and comprehending material evidence drawn from the close study of objects pictures and even people In this book Sarah Carter argues that object lessons taught Americans how to find and comprehend the information in things from a type metal fragment to a whalebone sample Featuring over fifty images and a full color insert this book offers the object lesson as a new tool for contemporary scholars to interpret the meanings of nineteenth century material cultural and intellectual life *The Teacher's Manual of Object Lessons in Elementary Science and Geography Combined* Vincent Thomas Murché, 1899 **The teacher's manual of object lessons for rural schools** Vincent Thomas Murché, 1901

Park,2014-07-10 Metadata best practices and guidelines function as an essential mechanism for metadata planning
application and management and interoperability There has been a rapidly growing body of digital repositories and
collections accordingly a wide range of digital projects and initiatives have adopted various metadata standards Because of
differences in the formats and knowledge domains of the resources it is inevitable that these digital projects and initiatives
may have different needs regarding metadata Therefore when a metadata standard is adopted in various institutions and
organizations it may have to be modified to reflect the community needs and characteristics of given resources The flexibility
and complex structure of natural language allow for the representation of a concept in various ways Thus common
understanding and definitions of terms in a given metadata standard is essential for quality metadata generation
management interoperability and resource sharing This opens up a pressing need for a systematic examination of
documentation practices an area that up to now has been relatively unexplored This book begins to fill the research gap
through an empirical assessment of metadata guidelines and best practices This is a book published as a special issue of the
Journal of Library Metadata Reading Victorian Schoolrooms Elizabeth Gargano,2013-10-31 Reading Victorian
Schoolrooms examines the numerous schoolroom scenes in nineteenth century novels during the fraught era of the Victorian
education debates As Gargano argues the fiction of mainstream and children s writers such as Dickens Bront and Carroll
reflected widespread Victorian anxieties about the rapid institutionalization of education and the shrinking realm of domestic
instruction As schools increasingly mapped out a schema of time schedules standardized grades or forms separate disciplines
and hierarchical architectural spaces childhood development also came to be seen as regularized and standardized according
to clear developmental categories Yet Dickens Bront and others did not simply critique or satirize the standardization of
school experience Instead most portrayed the schoolroom as an unstable site incorporating both institutional and domestic
space Drawing on the bildungsroman s traditional celebration of an individualized experiential education numerous novels of
school life strove to present the novel itself as a form of domestic education in contrast to the rigors of institutional
instruction By positioning the novel as a form of domestic education currently under attack these novelists sought to affirm
its value as a form of protest within an increasingly institutionalized society The figure of the child as an emblem of
beleaguered innocence thus became central to the Victorian fictive project **Object Lessons for the Cradle Roll** Frances
