Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals

Hartsfield, Danielle E., 2021-06-25 Perspectives and identity are typically reinforced at a young age giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults which introduces them to texts that deal with religion, gender, identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today's young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty, adjunct instructors, researchers, and students.

Teaching Literacy in

Urban Schools Barbara Purdum-Cassidy, Lakia M. Scott, 2018-03-02 Today's public schools represent greater student diversity than ever before in the history of the United States, yet pedagogical approaches as mandated by state education agencies and school districts superimpose mainstream curricula and instructional practices which ultimately disadvantage the academic outcomes of the majority minority African American and Hispanic/Latino students. Unfortunately, national report findings also heighten the educational crisis that exists for Black and Brown children with regard to reading and writing achievement. As a result, there is a need to deeply explore the relationship between Black and Brown student literacy achievement and educational policy, teacher education, program, curriculum, and assessment. This book seeks to provide some practical insights guided by conceptual and contextual knowledge by understanding how to teach urban African American and Hispanic/Latino students by discussing culturally appropriate instructional strategies that have demonstrated success.
