To Whom It May Concern,

I am writing this letter to nominate Lawrence Ramirez for the Employee of the Month. He is a fabulous employee, a huge asset to our department, and is so deserving of this award and recognition.

Lawrence's customer service skills are exemplary. He is one of the friendliest people that I know, and he always arrives with a smile on his face and a happy greeting for his co-workers.

Although Lawrence is responsible for his own daily tasks, he can often be found assisting other coworkers with their tasks. Lawrence also has an ability to communicate effectively with all of his coworkers, from the director level to our hourly student worker. Below are just a few of the email comments I've received from his class participants:

- "Lawrence is the nice payroll person I've spoken with. He was very patient and answered all my questions."
- "Lawrence's knowledge of payroll is a benefit to us all! I really appreciated how friendly he was and how he made me feel at ease when clearly I was clueless."

The Economics of Symbolic Exchange Alexander Dolgin, 2008-09-17 Alexander Dolgin s Economics of Symbolic Exchange is in reality not one but three books and although these semantic layers are interlinked the reader will need to choose between the different vectors and modalities One clearly evident dimension is research Certain authors introduce quite new intellectual approaches into scientific debate This requires a special frame of mind and a searching curiosity about social reality Carl Gustav Jung identified a phenomenon which he called systematic blindness when a science reaches a stage of maturity and equilibrium it categorically refuses from a sense of self preservation to note certain facts and phenomena which it finds inconvenient In Alexander Dolgin s book whole complexes of such non canonical material are to be found Here are just a few examples like exchange networks through which digital works of art are spread through the Internet bargain sales of fashionable clothing the paradox of equal pricing of cultural goods of varying quality and a discussion of whether patronage or

business has the more productive influence on creativity Obviously not all the issues Volgin raises are totally new but brought together and examined within an elegant logical framework of informational economics they pose a challenge to scientific thinking Such challenges are by no means immediately or in some cases ever acclaimed by the scientific establishment J K Galbraith for example a great American economist whose works are read throughout the world who introduced a whole range of crucially important concepts the director of John F The Grants Register 2025 Palgrave Macmillan, 2024-08-23 The Grants Register 2025 is the most authoritative and comprehensive guide available of postgraduate and professional funding worldwide It contains international coverage of grants in almost 60 countries both English and non English speaking information on subject areas level of study eligibility and value of awards and information on over 5 100 awards provided by over 1 300 awarding bodies Awarding bodies are arranged alphabetically with a full list of awards to allow for comprehensive reading The Register contains full contact details including telephone fax email and websites as well as details of application procedures and closing dates It is updated annually to ensure accurate information *Protecting the Employment Rights of Those who Protect the United States* United States.
