Divine Hierarchies Sean McCloud, 2009-01-05 Placing the neglected issue of class back into the study and understanding of religion Sean McCloud reconsiders the meaning of class in today's world More than a status grounded in material conditions says McCloud class is also an identity rhetorically and symbolically made and unmade through representations It entails relationships identifications boundaries meanings power and our most ingrained habits of mind and body He demonstrates that employing class as an analytical tool that cuts across variables such as creed race ethnicity and gender can illuminate American religious life in unprecedented ways Through social theory historical analysis and ethnography McCloud makes an interdisciplinary argument for reinserting class into the study of religion First he offers a new three part conception of class for use in studying religion He then presents a focused cultural history of religious studies by examining how social class surfaced in twentieth century theories of religious affiliation He concludes with historical and ethnographic case studies of religion and class Divine Hierarchies makes a convincing case for the past and present importance of class in American religious thought practice and scholarship

The Rhetorical Leadership of Fulton J. Sheen, Norman Vincent Peale, and Billy Graham in the Age of Extremes Timothy H. Sherwood, 2013-08-15 Fulton J Sheen Norman Vincent Peale and Billy Graham were America's most popular religious leaders during the mid twentieth century period known as the golden years of the Age of Extremes It was part of an era that encompassed polemic contrasts of good and evil on the world stage in political philosophies and international relations The

1950s and early 1960s in particular were years of high anxiety competing ideologies and hero villain mania in America Sheen was the voice of reason who spoke against those conflicting ideologies which were hostile to religious faith and democracy Peale preached the gospel of reassurance self assurance and success despite ominous global threats and Graham was the heroic model of faith whose message of conversion provided Americans an identity and direction opposite to atheistic communism This study looks at how and why their rhetorical leadership both separately and together contributed to the climate of an extreme era and influenced a national religious revival
