

DOT PLOTS notes

dot plot - (also known as a _____ plot) displays data on a number line using _____ or _____.

Example: Students timed how long it took them to eat their lunch. The dot plot represents the data.

Let's read the dot plot:

1. How many students took 8 or more minutes to eat their lunch?
2. What percentage of students ate their lunch in 5 minutes or less?
3. What is the average time it takes this group of students to eat their lunch?

Let's create our own dot plot.

Fifteen students at Lake High were surveyed about their favorite pet. Here are the results:
dog, cat, dog, rabbit, cat, cat, dog, fish, dog, dog, turtle, fish, cat, guinea pig, turtle

that students who are starting from a low knowledge base will be able to quickly get up to the level required. Students who have not studied mathematics for some time will find this an excellent refresher. Each chapter starts with the basics before gently increasing in complexity. A full outline of essential definitions, formulae, laws and procedures are introduced before real world situations, practicals and problem solving demonstrate how the theory is applied. Focusing on learning through practice, it contains examples supported by 1 600 worked problems and 3 000 further problems contained within exercises throughout the text. In addition, 34 revision tests are included at regular intervals. An interactive companion website is also provided containing 2 750 further problems with worked solutions and instructor materials.

Practical Flow Cytometry Howard M. Shapiro, 2005-02-25. From the reviews of the 3rd Edition: The standard reference for anyone interested in understanding flow cytometry technology. American Journal of Clinical Oncology: one of the most valuable of its genre and addressed to a wide audience written in such an attractive way being both informative and stimulating. Trends in Cell Biology: This reference explains the science and discusses the vast biomedical applications of quantitative analytical cytology using laser activated detection and cell sorting. Now in its fourth edition, this text has been expanded to provide full coverage of the broad spectrum of applications in molecular biology and biotechnology today. New to this edition are chapters on automated analysis of array technologies, compensation, high speed sorting, reporter molecules and multiplex and apoptosis assays along with fully updated and revised references and a list of suppliers.

Restoration of Motion Picture Film Paul Read, Mark-Paul Meyer, 2000-08-14. This is the first book to bring together the work of a modern motion picture film laboratory together with the specialist techniques for preservation and restoration of archival film. The book's data has its origins in a training programme called FILM which was written by members of the Gamma Group with funding from the EU fund Force. The committee comprised senior film archivists and technicians in charge of film conservation departments or working film laboratories within national film archives together with technicians from commercial laboratories which specialise in archival film conservation and who do not work for national and local archives. The final group consisted of many of the most experienced individuals in their fields. Restoration of Motion Picture Film is an extremely informative, well researched book.
