through 0061 and I feel this one is the most effective review guide for the test It is more close to the real test than any other book I used Some other books on this topic just state a lot what will be tested in the test that is useless in taking the test which is solving problem all the way In this book the author gave a lot examples and some practice that directly like what is in the test If you do not have much time do not waste time searching like I did just pick this one There is little choice No other review guide for 0061 is better than this one Wei Qui 5 star review on Amazon com This book is a gem I am taking the test in about a month and this book allowed me to jump right into problem solving and practice It quickly moves across the range of topics which gave me the opportunity to assess my weaknesses and strengths The discussion of each solution is excellent suggesting more than one approach in many examples And several of the examples are pretty humorous and fun Mark W Frazier 5 star review on Amazon com The book is a great resource for test taking tips but I would use it in conjunction with one of the others for the practice tests There is only one VERY short practice quiz in this book but there are lots of examples praxistaker 3 star review on Amazon com
