Education Mariam Akinlolu, Manyane Makua, Nomalungelo Ngubane, 2024-06-03 This edited volume explores current practices in African higher education during and post the global pandemic. It fills a gap in the existing literature by focusing on student engagement and online learning in South Africa and examines how pandemic restrictions amplified pre-existing inequalities within the higher education sector. The book is divided into 3 sections. The first section discusses various methods of instruction and the use of online tools for facilitating learning, succeeded by a section focusing on the resource implications of moving to online learning platforms from a social justice perspective, and finally the last section considers issues and concerns about online assessments and quality assurance. Drawing on lessons from the experiences of South African educators and students during the pandemic, this book provides a knowledge base essential for the effective management of online teaching and learning in Africa. It is intended for academic stakeholders to develop and engender an improved higher education climate.

List of Serials Currently Received in the Library of the United States Department of Agriculture as of July 1, 1957, 1958 This list includes all serials printed and processed received by the Library of the United States Department of Agriculture on a current basis as of July 1, 1957. Only dailies or administrative use are omitted. A serial is defined as a publication that is issued either regularly or irregularly over an unspecified period of time. For the purposes of this list, a serial was considered current if it had been received in the Library at any time since January 1954 unless it was known to have ceased.

List of Serials Currently Received in the Library of the United States Department of Agriculture as of July 1, 1957 Elizabeth Gould Davis, 1958 *Miscellaneous Publication*, 1958 Hybrid Systems: Computation and Control Maria D. Di Benedetto, Alberto Sangiovanni-Vincentelli, 2001-03-14 This volume contains the proceedings of the Fourth Workshop on Hybrid Systems Computation and Control HSCC 2001 held in Rome, Italy, on March 28-30, 2001. The Workshop on Hybrid Systems attracts researchers from industry and academia interested in modeling, analysis, synthesis, and implementation of dynamic and reactive systems involving both discrete, integer, logical, symbolic, and continuous behaviors. It is a forum for the discussion of the latest developments in all aspects of hybrid systems, including formal models and computational representations, algorithms, and heuristics, computational tools, and new challenging applications. The Fourth HSCC International Workshop continues the series of workshops held in Grenoble, France (HART 97), Berkeley, California, USA (HSCC 98), Nijmegen, The Netherlands (HSCC 99), and Pittsburgh, Pennsylvania, USA (HSCC 2000). Proceedings of these workshops have been published in the Lecture Notes in Computer Science (LNCS) series by Springer-Verlag. In line with the beautiful work that led to the design of the palace in which the workshop was held, Palazzo Lancellotti in Rome, resulting from the collaboration of many artists and architects of different backgrounds, the challenge faced by the hybrid system community is to harmonize and extract the best from two main research areas: computer science and control theory.
