

HOW TO ANSWER THE MOST COMMON INTERVIEW QUESTIONS

1. PLEASE COULD YOU TELL ME A LITTLE BIT ABOUT YOURSELF?

In this case, the interviewer is looking to discover what about you would make a good fit for the job you are applying for and how you would work within the business. In answer to this question, you should keep your answers brief yet to the point. For example, you might say something like 'I am a driven person and I have proven this in my previous role, as you can see on my resume, my determination earned me a promotion twice within my first year.' You may then go on to talk about personal experiences within your career and private life which have some relation to the job you are looking to do.

2. WHAT IS THE REASON FOR LEAVING YOUR PREVIOUS JOB?

In short, the prospective employer is looking to find out whether or not you were fired or left for an unreasonable reason. You should be honest but avoid saying anything that may reflect badly on you. If the situation becomes uncomfortable, you can divert the subject to your achievements.

3. WHAT SALARY ARE YOU EXPECTING FROM THIS POSITION?

No employer wants to hear that you are expecting more than is usual for the job role but they also won't want you to aim lower than average as this shows that you don't have ambition. The best way to answer this question is to say that it is negotiable. If you are in any doubt as to what is reasonable, it is important to research the salaries of other people in this role.

4. WHAT GOALS AND AMBITIONS DO YOU HAVE FOR THE FUTURE?

This question may also come in other wordings such as "Where do you see yourself five years from now?" But in essence, the answer should be the same, and that is to explain what you hope to have achieved within your career and in particular the role you are applying for. Talk about improving your skills and learning new ones and explain how you plan to reach any goals you have stated.

5. WHY ARE YOU THE BEST CANDIDATE FOR THIS POSITION?

This is where you need to sell yourself. Don't be shy and ensure that you mention anything that makes you stand out from the crowd after all this is your chance to show what an asset you will be to the company.

6. WHAT IS YOUR MAIN WEAKNESS?

This is somewhat of a trick question and should be approached with caution. You should never say that you have no weaknesses as this is impossible for any human being but instead, you should demonstrate how you overcome your weakness and turn it into a positive.

7. WHAT CAN YOU TELL ME ABOUT (COMPANY NAME)?

Many job interviewers will ask you to tell them about the company that you are interviewing with and it is a common mistake when people do not do their research. If you appear to not know a lot about the company, it is going to come across as you not being bothered whether you work for them or not. A good knowledge of the company can be very impressive and can often secure a position.

Answers At Your Job Interview Mayola Beermann,2021-07-25 While some job interviewers take a fairly unusual approach to interview questions most job interviews involve an exchange of common interview questions and answers including some of the most often asked behavioral interview questions Here are some of the most common interview questions along with the best way to answer them Why do you want this job Why should I hire you Why do you want to leave your current job Do you have convincing answers ready for these important questions Landing a good job is a competitive process and often the final decision is based on your performance at the interview By following the advice of the author a prominent career planning and human resources expert you ll know you have the right answers at your job interview *Smart Answers to Tricky Interview Questions* Rob Yeung,2015-07-02 This is a book for job seekers that covers just about every interview scenario that they might have to deal with and includes over 200 examples of just about every question they may be asked with examples of appropriate answers Provides inside information from an author who is frequently asked by organisations to interview candidates design assessment centres and train interviewers He writes the questions for interviewers to ask and tells them the answers they should listen out for This new edition includes a new chapter on building rapport and making a confident impact **Finding the Best and the Brightest** Peg Thoms,2005-07-30 Finding the Best and Brightest proposes an approach to choosing leaders based on a set of criteria designed to align individual qualities with organizational or institutional goals Peg Thoms challenges the popular trend in theory and practice toward transformational or visionary leadership arguing instead that leadership must be developed in context many organizations for example don t need visionaries as much as they need operational leaders who get things done by focusing on present day tasks such as designing superior products and delivering exceptional customer service This book provides guidance for how to recruit select and retain the right people for leadership positions at any level of the organization Drawing from research conducted in the private public and non profit sectors Thoms features powerful examples of effective and ineffective leadership in a variety of situations and sheds light on the complex relationships between leaders and those who follow them We all choose our leaders We hire them to run our companies We vote them into office We appoint them to committees We decide to work for serve and follow them In fact all leadership is relative by taking direction or orders going to bat or war marching behind listening and agreeing we are choosing to allow another individual to lead us Whether the stage is a corporation a country a club a school or any other organization effective leaders matter Yet despite such high profile examples of leadership disasters from the California recall of Gray Davis to the fall of such business titans as Ken Lay and Sam Waksal we continue to choose hire and elect poor leaders Finding the Best and Brightest explores this phenomenon in business politics and other sectors of society and proposes an antidote an approach to choosing leaders based on a set of criteria designed to align individual qualities

with organizational or institutional goals Peg Thoms challenges the popular trend toward transformational leadership which focuses on identifying universal characteristics arguing instead that leadership must be developed in context Many organizations for example need operational leaders who can focus on present day tasks such as designing superior products and delivering exceptional customer service and not inspirational or visionary leaders whose otherwise admirable qualities might be ill suited to the challenges at hand Outlining six typical leadership search scenarios from school principal to hospital CEO Thoms shows readers how to identify the traits and behaviors that are most essential for the position and how to structure interviews and other search techniques to elicit the most informative responses and home in on the best candidates She also reminds us that many organizations fail not because they can't find good leaders but because they can't keep them and offers strategies to promote leadership development Whether you are an executive giving the nod to a new department head a concerned citizen casting your vote for a municipal councilman a club member choosing a new president or an aspiring leader deciding which offer will provide the greatest growth opportunities Finding the Best and the Brightest offers fresh insights on the dynamic relationship between leaders and those who follow them
