Risk Communication A Mental Models Approach:

Risk Communication M. Granger Morgan, 2002 People today must make decisions about many health safety and environmental risks Nuclear power HIV AIDS radon vaccines climate change and emerging infectious diseases are just some issues that may face them in the news media ballot box or doctor's office In order to make sound choices they need to get good information Because their time is limited that information has to be carefully selected and clearly presented This book provides a systematic approach for risk communicators and technical experts hoping to serve the public by providing information about risks The procedure uses approaches from risk and decision analysis to identify the most relevant information it uses approaches from psychology and communication theory to ensure that it is understood This book is written in nontechnical terms designed to make the approach feasible for anyone willing to try it It is illustrated with successful communications on a variety of topics

Gutteling, O. Wiegman, 2013-03-09 Exploring Risk Communication presents a systematic planning approach to risk communication Risk communication is seen by many as an important tool for managing technological

environmental and natural risks The book's goal is to improve risk communication processes in these areas between private and public risk communication sources and the public The systematic planning approach focuses on research activities which are considered to be diagnostic tools providing insight into the public's reactions to risks and into the public's cognitive abilities to process risk information These studies give us the necessary ingredients for an adequate risk communication from the audience side of the risk communication process Evaluation studies are considered necessary to monitor the effectiveness of the communication Exploring Risk Communication provides a review of current research in risk communication focusing on perceived trust and credibility of risk communication sources and arguments in risk messages risk comparison and framing of risk Special attention is paid to the mass media context of risks and its impact on public perception Finally the potential of the new interactive media for risk communication is reviewed The authors have performed several communication studies in the risk area working from their social psychological background This results in a monograph interesting to those working on risk communication issues on an academic level but the systematic planning approach is also a useful frame of reference for risk communication practitioners or for those who are just interested in the often complex risk communication issues

The Psychology of Risk Glynis M. Breakwell, 2014-09-15 Since the first edition of The Psychology of Risk there have been enormous macro economic and socio political changes globally the chaos in the world banking system and the financial crisis and recessions that it presaged the Arab Spring and the revolutionary shifts in power in the Middle East with rippled consequences around the world the development of ever more sophisticated cyber terrorism that can strike the private individual or the nation state with equal ease Amidst these changes in the face of hazard do the psychological models built to explain human reactions to risk still apply Has the research over the last few years resulted in an improvement in our understanding of how people perceive and act in relation to risk In this second edition Professor Dame Breakwell uses illustrations and current examples to address these questions and provide a totally up to the minute review of what is known about the psychology of risk

Effective Risk Communication Joseph Arvai, Louie Rivers III, 2013-10-30 There are two questions often asked of risk communication what has been learned from past work and what is needed to push the field forward Drawing on the experience of leading risk researchers and practitioners Effective Risk Communication focuses on answering these questions The book draws together new examples of research and practice from contexts as diverse as energy generation human health nuclear waste climate change food choice and social media This book treats risk communication as much more than the interchange of risk information between experts and non experts rather it aims to emphasise the diversity in viewpoints and practices In each specially commissioned chapter the authors reflect on the theoretical and applied underpinnings of their best projects and comment on how their approach could be used effectively by others Building upon each other the chapters will provoke new discussion and action around a discipline which many feel is neither meeting important needs in practice nor living up to its potential in research Through a more careful examination of

the work already done in risk communication the book will help develop better more reflective practice for the future
