Inspirational Guide for the Implementation of PRME Principles for Responsible Management Education, 2017-09-08 Since the inception of the United Nations Global Compact sponsored initiative Principles for Responsible Management Education PRME in 2007 there has been increased debate over how to adapt management education to best meet the demands of the 21st century business environment While consensus has been reached by the majority of globally focused management education institutions that sustainability must be incorporated into management education curricula the relevant question is no longer _why_ management education should change but _how_ Although the PRME initiative is set to increase to 1 000 signatories by 2015 it is equally important for PRME to cultivate actively engaged participants Therefore the next step is for current participants to transition from a global learning community to an action community For this purpose the PRME Secretariat invited a small group of experts to coordinate an Inspirational Guide for the Implementation of PRME which was presented at the 3rd Global Forum for Responsible Management Education the official platform for management related Higher Education Institutions HEIs at both the Global Compact Rio 20 Corporate Sustainability Forum and the UN Conference on Sustainable Development Rio 20 in June 2012 in Rio de Janeiro The Guide answers the most frequently asked questions concerning the implementation of PRME by

highlighting real world examples from the most engaged signatories The exercise has proven successful and this publication features 63 case stories from 47 institutions representing 25 countries across Asia Oceania the Americas Europe the Middle East and Africa They are the real actors in this effort and their stories are truly inspirational Their experiences are classified into six sections which address the Six Principles of PRME Purpose Values Method Research Partnership and Dialogue as well as important related aspects such as how to get started how to successfully report on PRME adoption and so on The full richness of experiences set forth in this Guide is captured only by reading the wealth of innovative practices found in each case

Religious Education in Malawi and Ghana Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education
