Social Science Information and Public Policy Making Robert F. Rich, 2018-04-24 A survey of federal officials reveals the belief that government should make the fullest possible use of social science information and yet most of the information developed by social scientists winds up in specialized libraries or data banks where it remains unused Why don't public officials make greater use of the information social scientists develop What can social scientists do to ensure that their findings are used To answer these and related questions Robert Rich reports the results of a unique experiment designed to facilitate the use of research data by public officials in federal agencies Rich interviewed both researchers and users of research data over the two year life of a Continuous National Survey CNS experiment to discover the extent to which the CNS mechanism was successful and to record the levels and types of use that officials made of the data provided Rich reveals that factors such as the timeliness cost and relevance of data do not guarantee that information will be used He examines patterns in the actual use of survey data by agency officials and explores key organizational factors such as the compatibility of information with various bureaucratic interests He discusses the preoccupation of public officials with bureaucratic issues regarding the ownership and control of information identifies the incentives that prompt bureaucrats to pass along new information and the government officials

difficulties in developing policies and programs for meeting national needs Rich notes that studies of knowledge inquiry systems found in the research literature of many social science disciplines have been dominated by a rationalistic bias This bias is expressed in terms of the belief that the act of acquiring information will automatically lead to its use in turn automatically leading to improved policy or decisions He contends that empirical studies of how information is actually used do not support the assumptions of rational choice theory The new chapter also discusses types of information knowledge and use prospects for the development of learning organizations in government and the politics of expertise This book will be of interest to social scientists and public policy makers Robert F Rich is professor of law and political science at the University of Illinois at Urbana Champaign He is also professor in the Institute of Government and Public Affairs and was the director of that Institute from 1986 1997 He is the founding editor of Knowledge Creation Diffusion Utilization now Science Communication

Administrative Assistant's & Secretary's Handbook James Stroman, Kevin Wilson, Jennifer Wauson, 2004 The most thorough career guide for administrative professionals now addresses the latest issues in a new second edition *Inside The Bureaucracy* Thomas P. Murphy, 2019-03-13 In recent years the enhanced role of political executives in the White House has tended to overshadow the contributions of assistant secretaries and other political executives in the Cabinet and other agencies However President Carter's determination to reestablish the primacy of the Cabinet has opened up the possibility that the assistant secretary's role will be reinvigorated Assistant secretary positions originally established for the direction of presidential programs have evolved over time to encompass many additional roles This is the first substantial analysis in more than a decade of the assistant secretaries' roles, relationships and career patterns as well as those of other presidential appointees Based on the specific experiences of twenty one assistant secretaries and three under secretaries who served during the Nixon Ford and Carter administrations it provides invaluable insights into the background against which political executives carry out the president's programs and help formulate his policies
