Changing Social Attitudes Toward Disability David Bolt, 2014-07-11 Whilst legislation may have progressed internationally and nationally for disabled people barriers continue to exist of which one of the most pervasive and ingrained is attitudinal Social attitudes are often rooted in a lack of knowledge and are perpetuated through erroneous stereotypes and ultimately these legal and policy changes are ineffectual without a corresponding attitudinal change This unique book provides a much needed multifaceted exploration of changing social attitudes toward disability Adopting a tripartite approach to examining disability the book looks at historical cultural and education studies broadly conceived in order to provide a multidisciplinary and interdisciplinary approach to the documentation and endorsement of changing social attitudes toward disability Written by a selection of established and emerging scholars in the field the book aims to break down some of the unhelpful boundaries between disciplines so that disability is recognised as an issue for all of us across all aspects of society and to encourage readers to recognise disability in all its forms and within all its contexts This truly multidimensional approach to changing social attitudes will be important reading for students and researchers of disability from education cultural and disability studies and all those interested in the questions and issues surrounding attitudes toward disability Readers' Guide to Periodical Literature ,1915 Reshaping Accounting and Management Control

Systems Katia Corsi, Nicola Giuseppe Castellano, Rita Lamboglia, Daniela Mancini, 2017-03-21 This book examines the relationship between digital innovations on the one hand and accounting and management information systems on the other In particular it addresses topics including cloud computing data mining XBRL and digital platforms It presents an analysis of how new technologies can reshape accounting and management information systems enhancing their information potentialities and their ability to support decision making processes as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies Focusing on the four major aspects data management information system architecture external and internal reporting the book offers a valuable resource for CIOs CFOs and more generally for business managers as well as for researchers and scholars It is mainly based on a selection of the best papers original double blind reviewed contributions presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems AIS **Town and Country Planning in the UK** Simin Davoudi, David

Webb, Geoff Vigar, John Pendlebury, Tim Townshend, Trevor Hart, Vincent Nadin, 2014-12-05 Town and country planning has never been more important to the UK nor more prominent in national debate Planning generates great controversy whether it s spending 80m and four years inquiry into Heathrow s Terminal 5 or the 200 proposed wind turbines in the Shetland Isles On a smaller scale telecoms masts take away house extensions and even fences are often the cause of local conflict Town and Country Planning in the UK has been extensively revised by a new author group This 15th Edition incorporates the major changes to planning introduced by the coalition government elected in 2010 particularly through the National Planning

Policy Framework and associated practice guidance and the Localism Act It provides a critical discussion of the systems of planning the procedures for managing development and land use change and the mechanisms for implementing policy and proposals It reviews current policy for sustainable development and the associated economic social and environmental themes relevant to planning in both urban and rural contexts Contemporary arrangements are explained with reference to their historical development the influence of the European Union the roles of central and local government and developing social and economic demands for land use change Detailed consideration is given to the nature of planning and its historical evolution the role of the EU central regional and local government mechanisms for developing policy and managing these changes policies for guiding and delivering housing and economic development sustainable development principles for planning including pollution control the importance of design in planning conserving the heritage community engagement in planning The many recent changes to the system are explained in detail the new national planning policy framework the impact of the loss of the regional tier in planning and of the insertion of neighbourhood level planning the transition from development control to development management the continued and growing importance of environmental matters in planning community engagement partnership working changes to planning gain and the introduction of the Community Infrastructure Levy and new initiatives across a number of other themes Notes on further reading are provided and at the end of the book there is an extensive bibliography maintaining its reputation as the bible of British planning
