❖ Return to Empire: The New U.S. Imperialism in Comparative Historical Perspective by George Steinmetz

1. What is the distinction that Steinmetz makes between colonialism and imperialism and which best describes the United States and why?

- Modern non – territorial empire, or imperialism, has a much more sweeping agenda of controlling the world or a region for reasons that include economic ones alongside security, glory, and order.
- Although, the colonies or territories of the US are today only a relatively small part of the entire empire, it is not unusual for empires to control most of its empire indirectly.
- Empires possessed colonial systems during their earliest stages but increasingly became dependent on indirect rule as they expanded.
- Powerful states usually pursue a mix of imperialist (informal empires) and colonialist (formal empire) strategies.

2. What is the effect of empire on the world and on the homeland or center?

❖ Introduction," in Colossus by Ferguson
